#1 Natural Environment & Outdoor Recreation

So what *is* planning?

the **control** of urban development by a **local government authority**, from which a license must be obtained to build a new property or change an existing one *(Google dictionary)*

technical and political process concerned with the development and design of land use and the built environment, including air, water, and the infrastructure passing into and out of urban areas *(Wikipedia)*

design and regulation of the uses of space that focus on the physical form, economic functions, and social impacts of the urban [built] environment and on the location of different activities within it *(Brittanica)*

What do planners have to consider?

live

work

play

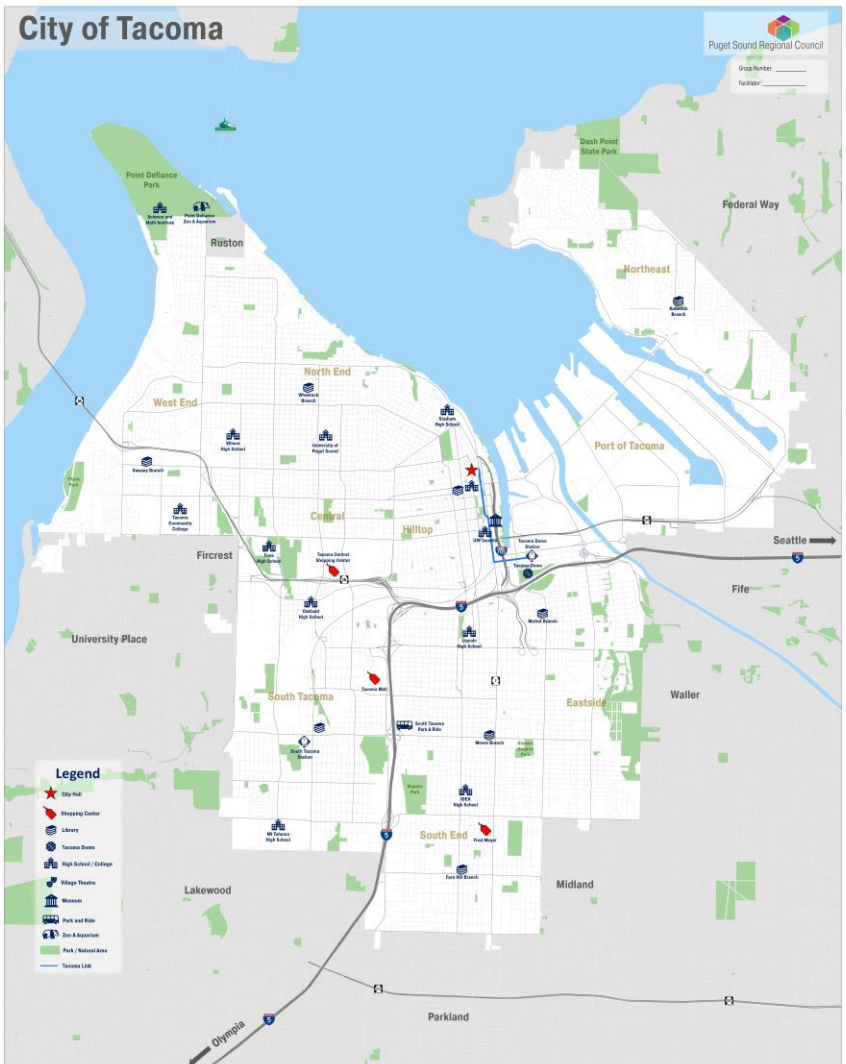

**How do planners know
what people want?**

We listen!
