

# Regional Traffic Operations Committee

JULY 2022 MEETING

Puget Sound Regional Council

**Presentation: WSDOT's WZDx  
(Work Zone Data Exchange)  
Grant and Deployment –  
*Justin Belk, WSDOT***

# Discussion:

# Regional Transportation Plan – ITS/Emerging Technologies Next Steps

# ITS/Technology in the RTP

- 2022 Regional Transportation Plan was adopted at the General Assembly in May
- Recommended ITS/Emerging Technology-related actions included in the following slides.
  - *What are RTOC's desired priorities?*
  - *What could RTOC's role in these be?*

# ITS/Technology in the RTP

## What's Ahead

- PSRC should provide a forum for and support member jurisdictions in monitoring ITS activities, identifying best practices, sharing technical assistance, and discussing emerging technologies and issues on an ongoing basis.
- In coordination with member agencies, PSRC should consider developing a guidance document for jurisdictions that includes examples of best practices and highlights the benefits and costs of various ITS deployments.

# ITS/Technology in the RTP

## What's Ahead (cont.)

- Jurisdictions should find ways to better highlight the benefits of ITS:
  - Explore more cost-effective options for retrieving data (e.g., downloading from controllers);
  - Develop and build more performance measures into ITS projects; and
  - Educate different groups on the benefits of ITS.
