

# Transportation Inventory Update

Transportation Policy Board  
March 9, 2023

# Overview

- PSRC collects, compiles, and analyzes transportation data/inventory information for multiple purposes
- Last major update in 2019-2021 to support the 2022 Regional Transportation Plan (RTP)
- Process/schedule has been developed for the next update
  - Timed to support development of 2026 RTP
  - Implementation of early steps has already begun

# Applications of Inventory Information

- Incorporated into the **Visualization Tool** which maps the data and makes it available to agencies and the community at large
- Determine measures needed to meet the region's **federal reporting requirements**
- Analysis to support metrics/trends identified in the **2022 RTP**
- Analysis to support development of the **next (2026) RTP**

# Inventory Areas

Transportation data collected/assembled **primarily by PSRC**

- ✓ **Bicycle / Pedestrian Infrastructure**
- ✓ **Bicycle / Pedestrian Policies & Regulations**
- ✓ **Bicycle / Pedestrian Counts**
- ✓ **ADA Transition Plans**
- ✓ **Local Jurisdiction Safety Plans**
- ✓ **Ferries**
- ✓ **Mobility on Demand**
- ✓ **Transit / High-Capacity Transit (HCT)**
- ✓ **Intelligent Transportation System (ITS)**
- ✓ **Freight Network**
- ✓ **Transportation Demand Management (TDM) Programs**
- ✓ **Specialized Transportation Programs & Trends**
- ✓ **Streets & Highways**

# Inventory Areas

- Collected/assembled primarily by **other entities**
  - ✓ **Bridges**
  - ✓ **Fish Passage Barrier Corrections**
  - ✓ **Commuter Trip Reduction (CTR) Worksites**
  - ✓ **Crash / Safety Data**
  - ✓ **Intercity Rail / Bus**
- PSRC also collects data to support the Regional Financial Strategy – updates to this process/schedule will be developed separately

# Schedule

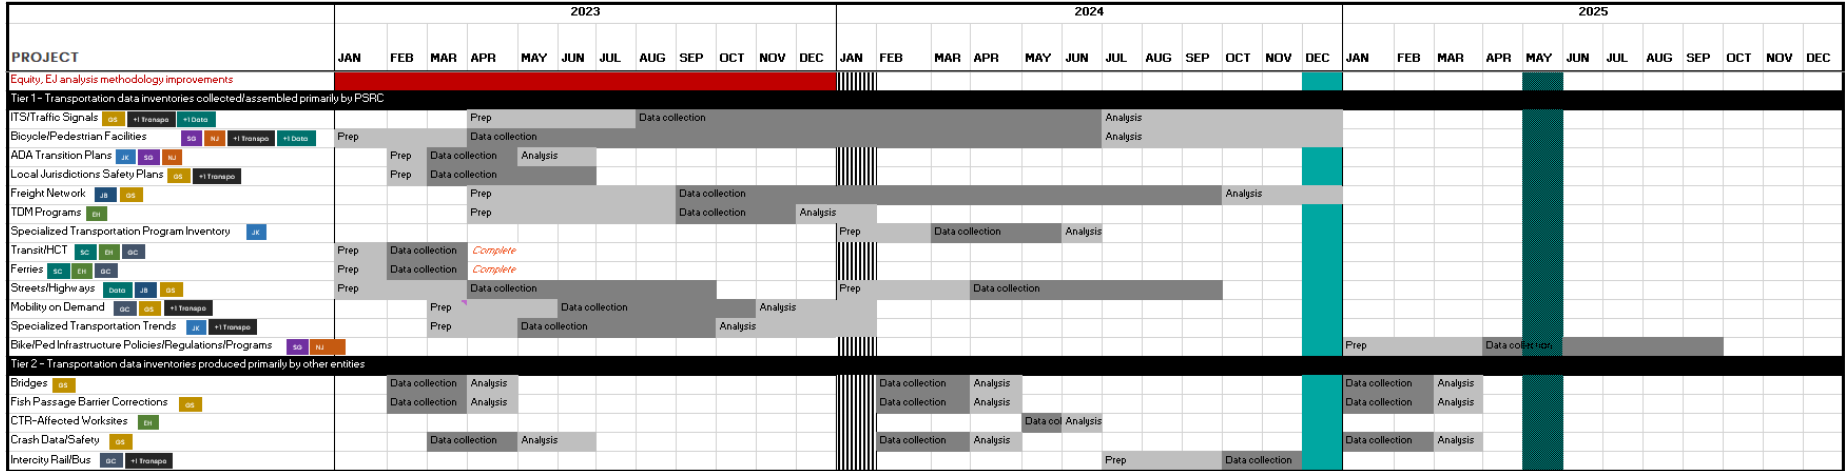

- For each inventory area, a timeline has been scheduled time for:
  - **Preparation** – evaluation of data source / collection methods, and identification of potential improvements
  - **Data collection** – the physical collection of the inventory data, including coordination with local jurisdictions
  - **Analysis** – incorporation of updated data into the Visualization Tool, and analysis to support the development of the 2026 Regional Transportation Plan (RTP) and other metrics
- In order to support the 2026 RTP development, bulk of inventory update scheduled in 2023 and 2024

# Draft Schedule

■ 2022 RTP/New Work    
 ■ Target for RTP Inventories/Data Completion    
 ■ Data Due for Modeling    
 ||||| Beginning of 2026 RTP Development    
 ⚙ Board Action

# Thank you

A scenic view of a waterfront park. In the background, a city skyline is visible under a blue sky with scattered clouds. A large red and white ship is docked at a pier. In the foreground, a paved path winds through a grassy area with some people walking. A large body of water is in the middle ground, with a bridge and other structures visible in the distance.
