Project Description

Project Scope: Please provide a clear and concise (300 words or less) description of the individual components of this project. What will be the specific outcome of this project? What will be built, purchased or provided with this grant request? If this is part of a larger project, please be specific as to the portion on which the grant funds will be used.

As a part of the larger Transit Connection Corridor Project, the City of Mountlake Terrace is constructing paved and illuminated pedestrian pathways through Veterans Memorial Park with connections to 58th Ave W., 60th Ave W., the Civic Campus and Mountlake Terrace Transit Center. There are three trail segments (North Connector, Campus Connector and Main trail) running through Veterans Memorial Park.

Funds from the Transportation Alternatives Program (TAP) will support the construction of the Main Trail segment, frontage improvements, a new pedestrian bridge crossing the stormwater channel, a gravel cut through and necessary mitigation as a result of impacts from development. This project was previously programmed as MOU-29, before recent CMAQ funding was recently returned. All other trails and development of the pedestrian plaza are incorporated as MOU-30.

The City is currently requesting TAP funds in order to replace the returned CMAQ funding and fully fund the previously programmed MOU-29. When combined with MOU-30, these projects complete the scope of work for the Transit Connection Corridor project (MOU-29 & MOU-30).

This project (Main Trail construction), will convert the existing soft surface trail to an 8-foot wide, paved, accessible, illuminated pathway with a gravel cut through. Proposed mitigation will be installed to offset impacts during construction. Signage and trail amenities will be installed to provide waste receptacles, rest areas (benches and landings to address ADA) as well as directional and educational guides. Frontage improvements along 58th Ave W. will increase accessibility with ramp upgrades and sidewalk improvements.

Located in the heart of the redeveloping Town Center, this project will provide safe, illuminated, accessible, offroad trail connection to the Transit Center and Sound Transit Light Rail Station.

Project Justification, Need or Purpose: Please explain (in 300 words or less) the intent, need or purpose

of this project. What is the goal or desired outcome?

In 2024, Sound Transit will open a new light rail station at the Mountlake Terrace Transit Center, as a part of Sound Transits Lynnwood Link Extension project. The Mountlake Terrace Transit Center, located at 236th Street SW and I-5 is the transit hub for the city with local, express and commuter bus services, Dial-a-Ride Transportation as well as rideshare facilities and services. This transit hub is served by Sound Transit, King County Metro and Community Transit enabling high quality transfers and access to local and regional transit systems. The Transit Center is located adjacent to 9-acre Veterans Memorial Park, which provides an opportunity to balance development and provide off-road pedestrian connections through a natural green space. With the extension of Sound Transit light rail service to Mountlake Terrace (MLT) and the city's surrounding Town Center redevelopment plan, a proactive approach was taken in planning transit oriented/pedestrian friendly infrastructure to support anticipated future growth and increased population density. The city's Town Center Subarea Plan (2019) calls for development of a vibrant, attractive Town Center filled with offices, restaurants, housing, retail stores along with new community amenities, such as wider sidewalks, street trees and public plazas.

Existing dirt and gravel pathways through the dense woods of Veterans Memorial Park, are not illuminated, making them inaccessible during low lit hours and occasionally during the wet season. Development of the Main Trail at Veterans Memorial Park supports the Town Center plan in providing safe and accessible pathways to and from the Mountlake Terrace Transit Center, while creating gratifying trail connections through a healthy thriving forest. Funds from the Transportation Alternative Program (TAP) will support construction of the Main Trail segment (MOU-29) at Veterans Memorial Park and improve pedestrian connectivity and safe access between the redeveloping Town Center, adjacent neighborhoods and Mountlake Terrace Transit Center.

Plan Consistency

Is the project specifically identified in a local comprehensive plan? Yes

If yes, please indicate (1) the plan name, (2) relevant section(s), and (3) page number(s) for the relevant sections.

- 1. City of Mountlake Terrace Comprehensive Plan
- 2. Transportation Element

Page: TR 23

Pedestrian and Bicycle LOS

Alternative modes of transportation are a critical part of the transportation system, especially as costs of roadways projects continues to outpace growth in City revenue. Generally, the community does not support roadway widening, and alternative modes are an important element of the sustainability vision. In order to meet community goals and continue to operate an effective transportation system, an increase in the percentage of users traveling by alternative modes of transportation must increase. A fundamental element to increased mode split is creating infrastructure for alternative modes. Much of Mountlake Terrace's transportation network was built to primarily serve the automobile, which has left deficiencies in pedestrian, bicycle, and transit infrastructure. To address these needs the city could include critical pedestrian and/or bicycle network projects providing access to the Mountlake Terrace Transit Center and key uses. The Lakeview Trail project is already in the construction phase. Future projects could include the Veteran's Park Trail enhancement. Pedestrian and bicyclist needs and future projects are discussed in more detail in the Transportation Master Plan (adopted 2007). An update to the Transportation Master Plan, anticipated in 2017-2018, may identify additional needs and projects.

Policy TR 1.2 Make pedestrian and transit facilities safe and accessible for people with temporary or permanent mobility impairments or disabilities.

Policy TR 4.11 Ensure that multimodal concurrency standards are met by implementing critical pedestrian, bicycle and transit improvements.

Policy TR 6.8 Support transit ridership by providing strong pedestrian linkages to the Mountlake Terrace Transit Center and future light rail station.

1. City of Mountlake Terrace Comprehensive Plan

- 2. Housing Element
- 3. pg. HO-14

Policy HO-4.5 Promote quality, community-friendly residential development through features such as enhanced open space and pedestrian connectivity.

City of Mountlake Terrace Comprehensive Plan
 Land Use Element
 pg. LU-11, LU-15, LU-24

Gateway (Freeway/Tourist) Area.

Policy LU 5.6 Encourage development to be pedestrian and bicycle friendly and convenient for transit. Policy LU 6.10 Create a multi-modal Town Center that provides gathering and mobility for pedestrians, bicycles, automobiles, and public transportation.

If no, please describe how the project is consistent with the applicable local comprehensive plan, including specific local policies and provisions the project supports. Please include the actual text of all relevant policies or information on where it can be found, e.g. the policy document name and page

number.

Federal Functional Classification

Federal Functional Classification	Rural Functional Classification	Urban Functional Classification
		Exception

Support for Centers

Describe how the project will support the existing and planned housing/employment densities in the center.

The project site (Veterans Memorial Park) is located in the heart of the Mountlake Terrace Town Center and surrounded by two (2) zoning districts where anticipated redevelopment consists of building heights between TC -1 (6-12 stories) and TC-2 (4-8 stories). See uploaded Town_Center_Zoning_Districts_MLT_Comp_Plan PDF. Per the Mountlake Terrace Town Center Subarea Plan (2019), TC-1 District – Emphasizes transit-oriented employment development, for Town Center areas closest to Mountlake Terrace Transit Center and future light rail station. Building heights from 6-12 stories will be allowed.

TC-2 District – Functions as the retail cultural, dining and entertainment activity center. In the TC-2 District, building heights from 4-8 stories will be allowed.

Also identified in the 2020 Transportation Management Plan, the city recognizes public transit provides people with access to employment, housing, recreational resources and other types of destinations. This project supports mixed use development of the Mountlake Terrace Town Center while improving accessible off-road pedestrian travel to the Mountlake Terrace Transit Center and Sound Transit Light Rail Station. The TC zoning districts mixed use development has the potential to add approximately 3,000 new multifamily housing units and 625,000 square feet of commercial space. It is anticipated approximately 6,600 new residents and 1,953 new jobs could result from development of the Town Center.

This project provides an ADA route to areas planned for new housing and commercial/retail redevelopment, where currently ADA routes do not exist. Development of this paved, illuminated, accessible trail increases mobility during all hours and all seasons, while providing access to transit, shopping, employment and housing. With the imminent opening of the new Sound Transit Light Rail Station the city has anticipated the need to provide accessible services and accordingly, developed this project to address existing and future transit demands.

Describe how the project will support the development/redevelopment plans and activities (objectives and aims) of the center

The project location is adjacent to the Sound Transit Light Rail Station & Mountlake Terrace Transit Center to the west, the rapidly developing Town Center to the east and the Civic Campus (Police and Fire Stations, City Hall, Library) to the north. Also adjacent to the park are several other pockets of residential neighborhoods zoned for mixed use and residential redevelopment. Areas with good public transit systems are typically healthy and economically thriving communities. The city's Town Center plan outlines a central neighborhood incorporating areas for public activities. This type of development has the ability to encourage a sense of community and enhance neighborhood safety and security. Improvements to pedestrian connections such as the Main Trail at Veterans Memorial Park, are desired to support mixed use development, increased population density and economic growth while providing accessible, lighted, paved pathways for commuters. Per the city's 2020 Transportation Master Plan, incorporation of public transportation options into economic and

land use planning can offer a broad range of benefits to businesses and those employed or living locally. As a commitment towards rejuvenation of the Town Center area, the city completed the multimillion dollar Phase I - Main Street project, reconstructing 236th Street SW between I-5 and 56th Avenue West. With the anticipated growth within the Town Center and upcoming opening of the Sound Transit Light Rail Station at Mountlake Terrace Transit Center, development of the Main Trail project will provide additional connectivity and accessibility thereby satisfying comprehensive plan goals and policies of:

1.Promote revitalization of the Town Center and new ways to serve community need through attractive development. Designate strategic locations in the Town Center as "Priority Development Focus Areas" where a combination of public and private investments serve to complete and integrate planned redevelopment projects thus creating vibrant and active pedestrian places.

2.Create a multi-modal Town Center that provides gathering and mobility for pedestrians, bicycles, automobiles and public transportation.

3. Support transit ridership by providing strong pedestrian linkages to the Mountlake Terrace Transit Center and future light rail station.

4.Shorten trip lengths and reduce congestion by continuing to develop non-motorized alternatives and encouraging transit, car pools, and other measures that reduce traffic congestion and pollution from automobiles and trucks.

5. Make pedestrian and transit facilities safe and accessible for people with temporary or permanent mobility impairments or disabilities.

6.Provide for a pedestrian system that: connects residences, businesses, schools, parks, transit facilities and civic buildings.

A walkability analysis was conducted during development the Town Center Subarea Plan, which determined walking times from several areas. The study indicated pedestrians are willing to walk approximately ¼ mile or five+ minutes before choosing to drive to their destination. Much of the Town Center, including the project location, is within a 10 minute walk from the Sound Transit Light Rail Station & Mountlake Terrace Transit Center. The location of this project will provide immediate access to various hubs (Public Transit, Housing, Civic Campus etc.) as the rest of the Town Center redevelops over time.

This project supports local and regional objectives and visions of creating transit-oriented neighborhoods by providing illuminated, ADA connection to the light rail transit station, civic campus and surrounding residential neighborhoods.

Category-Specific Criteria: Pedestrian and Bicycle Projects

Describe how the project extends or completes a regional or local pedestrian and bicycle system, and/or adds facilities to an existing pedestrian and bicycle system or network.

This project converts existing narrow, dirt trails to paved, illuminated, accessible pathways establishing connection with the Mountlake Terrace Transit Center/Sound Transit Light Rail Station and surrounding neighborhoods. The Main Trail through Veterans Memorial Park provides an off-road, accessible pedestrian pathway from 58th Avenue West, to the newly renovated Mountlake Terrace Transit Center and Sound Transit Light Rail Station. The Campus Connector and North Connector trails (part of the fully funded MOU-30 project) branch off from the main trail making additional connections with the Civic Campus (Library, City Hall, Police Station) and 60th Avenue West. See TCCP Aerial Image (attachment), for the overall depiction of the Transit Connection Corridor Project.

This project creates an ADA accessible connection from the City Civic Center to the City's Lakeview multi-use trail, which connects to the 19 mile Interurban Trail that runs from downtown Seattle to downtown Everett. This project will also connect to two existing City bike routes, which then connect to other separated bike lanes and

shared bike routes in the City providing a total of 17 miles of bike routes within the city.

Describe how the project addresses a need in the community and reduces key barriers to use and functionality, i.e. travel distance, a steep slope, a comfort issue, or other identified barrier.

Survey respondents over the last several years have indicated a desire to improve trails and pedestrian connections to the Transit Center. The location of the Trail at Veterans Memorial Park makes this a highly desirable project, adjacent to the multi serviced transit-hub and surrounded by the Town Center redevelopment. Through design and construction, this project will reduce key barriers by converting an existing dirt trail, to an accessible well lit pathway. By lighting the pathway, pedestrians can travel during low lit hours or dark commuting times. Currently, this is not possible and is frequent feedback the city received during the planning process for this project. Commuters could not utilize this convenient route to the Transit Center, due to the lack of artificial lighting.

A larger barrier to be removed is the lack of accessibility. Currently, due to steep slopes, narrow pathways and soft surfacing, the trail is not ADA compliant. Those with mobility concerns (i.e. nearby assisted living communities) are likely to traverse the longer sidewalk route at street level, while still encountering non-ADA curb ramps, driveways etc. Construction of the Main Trail at Veterans Memorial Park will provide an ADA compliant, wider, paved surface that eases sloped terrain while offering illumination during low lit hours. All of these improvements are intended to increase usage and provide a safe (off road), direct, accessible pathway to and from the Transit Center.

Describe the connections to transit stops and stations provided by the project, including bus, rail, ferries, etc.

This project provides pedestrian connection to the Mountlake Terrace Transit Center and Sound Transit Light Rail Station. This transit hub accommodates various modes of transportation with bus services (Community Transit, Sound Transit, King County Metro), rideshare facilities and programs, Dial-a-Ride Transportation, bike lockers and the new Sound Transit Light Rail Station. These routes serve south Snohomish County and all of King County. The Link Light Rail line provides a direct connection from the new Mountlake Terrace Light Rail Station to Seattle-Tacoma International Airport.

From the Transit Center a nearly-completed network of separated bike lanes provide a continuous path from the Transit Center to the State ferry terminal and the Amtrak station in Edmonds (travel time: approximately 35 minutes bike).

Describe the anticipated level of public usage within the community and how the project will benefit a variety of user groups, including commuters, residents, and/or commercial users.

Sound Transit Lynnwood Link Extension (Light Rail) has a projected ridership 47,000 – 55,000 daily riders by 2026. Prior to Sound Transit (Light Rail Link) construction at the Transit Center, which closed the southern trail entrance, the pedestrian/bicycle usage for the project area was estimated between 50-100 pedestrians on typical weekdays. These numbers are anticipated to greatly increase with the opening of the new light rail station, construction of this project and continued development of the city's Town Center.

Community Transit's reporting for 2022, posted a 19% increase in ridership for Bus Rapid Transit, DART paratransit services and Vanpools.

As the mixed-use Town Center redevelops the city will experience an increase in commuters traveling to and from business, activities and housing as noted previously.

Demographics for the city (21,286 total population) show that approximately 12% of the city's population has some sort of disability and 86.2 % commute to work.

Development of this project will have an immediate benefit to the residents of the existing Mountlake Terrace Plaza (assisted living) located across the street from the Main Trail entrance off 58th Avenue W.

Construction of the Main Trail segment through Veterans Memorial Park would provide pedestrians with direct ADA access to various programs and modes of transportation with local and regional destinations. The trail also has the ability to increase economic growth with pedestrian access to local businesses, shops and eateries within the developing Town Center.

Discuss whether there will be a loss of opportunity if this project is not funded, e.g., development or other economic pressure.

Planning for this project has been underway for years (Comp Plan, Recreation and Parks Open Space Plan, Veterans Memorial Park Master Plan, Transportation Plan). Currently, design is progressing towards its final stages. If this project does not receive additional funding to support construction the local and regional community would suffer a huge loss as this is the only pedestrian trail providing off road (ADA) direct access to and from the Mountlake Terrace Transit Center on the east side of the I-5 corridor.

The Town Center Plan calls for a range of building types, mixed use neighborhoods, open spaces, private investments which are set to create a vibrant, diverse, attractive transit-oriented destination for the region. New development is designed specifically, to be easily walkable, with a traditional downtown feel filled with restaurants, coffee shops and local services as well as offices and other retail. The prime location of our project in relation to the transit center, park and ride and light rail station allows people from all over the region to access the City's mixed use town center. If this project is not constructed, ADA connection to 3+ hubs (Public Transit, Civic Campus, Housing/Retail/Commercial development) is severed, reducing the opportunity for economic growth.

Furthermore, additional funding sources and investments (Sound Transit, FHWA) supporting the pedestrian/transportation related project (MOU-30) in this region could be jeopardized, if the Main Trail segment is not constructed. The city would need to strategize (re-evaluate project scope) and reallocate funding for future projects and identify any reserves to support construction, as this project is a priority for the city and community.

Category-Specific Criteria: Equity

Section 1

Identify the population groups to be served by the project, i.e., people of color, people with low-income, older adults, people with disabilities, youth, people with Limited English Proficiency, populations located in highly impacted communities, areas experiencing high levels of unemployment or chronic underemployment, immigrants and refugees, and transit dependent populations.

Based on the PSRC resource webmap tool, the project area is identified to have a higher-than-regional average (above 11%) persons with disabilities and age group of 65+ older (above 13%) residing in the area. Additional demographics from City of Mountlake Terrace census data indicates 6.4% of people in Mountlake Terrace experience poverty, while the city's median household income (\$87,785) is barely above the state median (\$84,247). Residential mobility statistics also indicate there is a growing number of people relocating, to reside in Mountlake Terrace.

Public transit benefits those who choose to ride as well as those relying on forms of public transportation as their primary mode of travel. People experiencing poverty and/or mobility issues (due to age or mental/physical barriers) may rely heavily on the public transportation system due to lack of personal or individual vehicle transportation. Convenient, safe and easily accessible pedestrian routes (Main Trail) to public transit would greatly benefit these groups.

Identify the disparities or gaps in the transportation system / services for these populations that need to

be addressed.

The City's ADA Transition Plan identified over 500 missing or non-compliant curb ramps and over 700 noncompliant driveway crossings. Many of the City's ADA infrastructure was originally constructed in the 1960's and 1970's and is far from compliant. There is no accessible path from City Hall or nearby residential neighborhoods to the transit center. This project will construct an ADA accessible connection to the Transit Center, closing that accessibility gap.

The population in this part of the city has a higher-than-regional average percent of persons with disabilities and a higher-than-average percentage of elderly residents. The elderly and those with mobility issues are more likely to not own or drive cars, and are hence more reliant on transit to travel for work, shopping, medical appointments, and other reasons. This project will provide these populations improved access to several modes of local and region-wide transit to meet their travel needs.

Describe how the project addresses those disparities or gaps and benefits the population groups identified under Step 1.

The project is located adjacent to the Transit Center (multi-modal transit hub) making this an ideal (within ¼ mile) location to increase non-vehicular, off road access to public transportation. Current pedestrian and bicycle routes are at street level, parallel to vehicular traffic with accessibility issues (non-ADA curb ramps and driveways).

Upgrades (lighting, surfacing etc.) to the Main Trail, improvements to curb ramps and sidewalk at the intersection of 58th Avenue W and 234th Street SW will have direct benefit to the residential community at the Mountlake Terrace Plaza (assisted living, 65+ older, disabled) as well as other local neighborhoods while creating a safe, accessible, illuminated pathway for access to public transit within the Town Center redevelopment area.

Section 2

Describe the public outreach process that led to the development of the project. This could be at a broader planning level (comprehensive plan, corridor plan, etc.) or for the specific project. Include specific outreach or communication with the population groups identified in the previous section.

The 2017 Comprehensive Plan provides guidance regarding the development of Veterans Memorial Park. Elements such as Economic Vitality, Land Use, Transportation and Capital Facilities discuss the significance of planning for improvements to establish a strong pedestrian connection between the Transit Center and Civic Center, enhance walkability and the important role an improved and accessible Main Trail plays in providing non-vehicular transportation options.

Additionally, the city's Transportation Plan, Recreation and Parks Open Space Plan and Veterans Memorial Park Master Plan all identify a need to improve pedestrian infrastructure and provide accessible pathways to the Transit Center. These plans were all developed with public input and feedback. Various methods such as: public surveys, stakeholder group discussions, online and in-person Open Houses and numerous Boards/Commission/Council meetings were used to develop these guidance documents.

More specifically, the Veterans Memorial Park Master Plan incorporates accessible and illuminated commuter trails through the park to access the Transit Center. This conceptual plan for design, was developed based on community input from Boards/Commissions, surveys and stakeholder group discussion (Mountlake Terrace Plaza, American Legion as well as other downtown businesses, diversity commission members and accessibility

advocates). Planning for this project has been underway for several years.

Describe how this outreach influenced the development of the project, e.g., the location, scope, design, timing, etc.

Outreach and public input indicated this project was very important to the community, with existing conditions being unacceptable for commuting (no lighting, dirt pathways). Recognizing the importance to the community, timing of Sound Transit Light Rail development and impacts to economic growth and development of the city's Town Center, the city reprioritized the project, and pursued federal funding to support development. Veterans Memorial Park Master Plan was developed to address these needs as well as others.

The location makes this project ideal in supporting safe, off road, pedestrian access to the Transit Center as the land is city owned with existing trail routes in place.

More recently, design elements, such as trail amenities were selected by the public and are incorporated to encourage use and ownership of the Park and trail.

The timing of construction is set to align with the opening of the Sound Transit Light Rail Station and support non-vehicular use of public transportation. Transit Center parking is typically full by 7am. This project alleviates some of the capacity and accessibility issues.

Section 3

Is the project in an area of low, medium, or high displacement risk?

This project is located in a medium or moderate area at risk of displacement based on the PSRC Displacement Risk mapping tool.

If the project is in an area of medium or high displacement risk, identify the broader mitigation strategies in place by the jurisdiction to address those risks.

Noted in the Town Center Subarea Plan, anticipating displacement risk for existing Town Center residents and ongoing affordable impacts as redevelopment occurs is an important policy consideration for the city. Objectives set to address these concerns include:

1.Incorporation of well-designed buildings with landscaping and a multi-modal circulation network to enhance urban character and provide residents with a sense of pride and community.

2.Promoting housing choices with a range of densities to accommodate diversity with adequate supply of diverse housing options.

3.Developing in a manner that is sensitive to the surrounding residential areas in an effort to create a connection between the Town Center and its neighbors.

4.Zoning districts within the Town Center to allow for additional housing units, offering the community a varied housing stock to address concerns with affordable housing.

Category-Specific Criteria: Safety and Security

Describe how the project addresses safety and security.

Key components of a successful public transit system include access, safety, comfort and convenience, to name a few.

Remarks and commentary from community members, imply existing trail conditions lack accessibility and a sense of security, with no artificial lighting. As a result, this trail while convenient to access to the Transit Center,

is often underused. This project was developed to address these concerns and others identified through public survey.

Additionally, to minimize safety concerns, the following principals have been applied to address Crime Prevention Through Environmental Design (CPTED):

Natural surveillance: Through design, the project improves visibility by improving trail surfacing, widening the trail and providing ample lighting. Furthermore, vegetation management with intentional lighting application along the trail will improve site lines and create a comfortable walking route, even during low lit hours.

Access Management: Adding wayfinding signage within the park as well as at entrances for directional guidance. With the addition of a paved surface, the improved trail provides an identifiable and clear route for pedestrian use.

Territoriality: The improvements create a welcoming environment with benches and interpretive signage throughout, provoking ownership and pride from the community.

Physical Maintenance: Selection of materials that will have easier upkeep and replacement, if needed. With existing and future needs surrounding access to public transit and the redeveloping Mountlake Terrace Town Center, this project has been designed to encourage and increase users and activity, thereby enabling a greater level of security.

Describe how the project helps protect vulnerable users of the transportation system, by improving pedestrian safety and addressing existing risks or conditions for pedestrian injuries and fatalities and/or adding or improving facilities for pedestrian and bicycle safety and comfort.

Public transit benefits those who choose to ride as well as those who rely on public transportation as their primary mode of travel. By providing an off road accessible pathway to the Transit Center, there will be less vehicle and pedestrian traffic on an arterial (236th Street SW). Upgrades to curb ramps and sidewalk at the intersection of 234th Street SW and 58th Avenue W with a connection to an illuminated, ADA pathway to the Transit Center will serve to minimize the risk of future vehicle/pedestrian collisions during commuting hours (collisions with fatal or minor and serious injuries are documented along the street level pathway to the Transit Center). A paved pathway that is well lit will also serve to discourage nefarious activity in the park, especially during low lit and night time hours.

Does your agency have an adopted safety policy (e.g., Vision Zero, Target Zero, etc.)? How did these policies inform the development of the project?

The 2021 Local Road Safety Plan evaluates traffic collision data and proposed multi-modal transportation projects to develop goals, traffic safety countermeasures and improvement priorities to enhance roadway network for users of all modes of travel. Goals and policies were developed to align and conform with various local, regional and state transportation policies such as Target Zero, Vision 2050, public transit plans etc. This project supports Target Zero goals by removing pedestrian activity/transit along 236th Street SW (an arterial with known collisions and injury), and rerouting non-vehicular commuters through an accessible, illuminated, paved pathway for travel to and from the Transit Center and Sound Transit Light Rail Station.

Describe how the project reduces reliance on enforcement and/or designs for decreased speeds.

By providing accessible off road pedestrian travel to the Transit Center, this project removes any necessary reliance on enforcement at street level or designs for decreased speeds.

Financial Documentation

Please enter a description of your financial documentation in the text box below.

2023-2024 Adopted Biennial Budget (Mountlake Terrace) - Capital Improvement Fund (pg. 175). The revenue sources applicable include: Access Enhancement Sound Transit Grant, Federal Highway Grant - TCCP.

Sound Transit System Enhancement Fund Agreement - funding to support development of paved and illuminated trails at Veterans Memorial Park and development of a pedestrian plaza.

Sound Transit System Access Fund - Motion 2019-97. CN only for development of Veterans Memorial Park trails. A draft agreement is in place. Exhibits are being developed for final agreement execution. An executed agreement is anticipated by January 2024.

Congressionally Direct Spending (Earmarks) - Funding to support development of the Transit Connection Corridor Project.

Please upload supporting documentation demonstrating all necessary matching funds for the phase(s) for which PSRC funds are being requested are secure or reasonably expected.

Project Readiness

Preliminary Engineering/Design

Are you requesting funds for ONLY a planning study or preliminary engineering? No

What is the actual or estimated start date for preliminary engineering/design? July, 2022

Is preliminary engineering/design complete? No

What was the date of completion (month and year)? October, 2023

Have preliminary plans been submitted to WSDOT for approval? No

Are there any other PE/Design milestones associated with the project? Please identify and provide dates of completion. You may also use this space to explain any dates above. 90% design - August 2023

The design is progressing towards 90% design and is under environmental review. Once NEPA/SEPA are complete the city can apply for the HPA. Final design documents to WSDOT for review in October.

When are preliminary plans expected to be complete? For non-certified agencies, please enter the expected approval date.

October, 2023

Environmental Documentation

What is the current or anticipated level of environmental documentation required under the National Environmental Policy Act (NEPA) for this project? For more information on NEPA requirements, please refer to WSDOT's <u>Local Agency Guidelines Manual</u>.

Documented Categorical Exclusion (DCE)

Has NEPA documentation been approved? No Please provide the date of NEPA approval, or the anticipated date of completion (month and year). August, 2023

Right of Way

Will Right of Way be required for this project? No

What is the actual or estimated start date for right of way (month and year)?

What is the estimated (or achieved) completion date for the right of way plan and funding estimate (month and year)? If federal funds are to be used on any phase of a project, federal guidelines for acquisition of right of way must be followed, including submittal of a right of way plan and funding estimates.

Please describe the right of way needs of the project, including property acquisitions, temporary construction easements, and/or permits. Refer to <u>Chapter 25 of WSDOT's Local Agency Guidelines</u> <u>Manual</u> for more information.

What is the zoning in the project area?

Discuss the extent to which your schedule reflects the possibility of condemnation and the actions needed to pursue this.

Does your agency have experience in conducting right of way acquisitions of similar size and complexity?

If not, when do you expect a consultant to be selected, under contract, and ready to start (month and year)?

In the box below, please identify all relevant right of way milestones, including the current status and estimated completion date of each (month and year). For example, these might include: True cost estimate of right of way; Relocation plan; Right of way certification; Right of way acquisition; FTA concurrence; Certification audit by Washington State Department of Transportation Right of Way Analyst; and, Relocation certification, if applicable. Sponsors should assume a minimum of one year to complete the ROW process, longer if there are significant or complex property purchases.

Construction

Are funds being requested for construction? Yes

Do you have an engineer's estimate? Yes

Please attach the engineer's estimate.

Identify the environmental permits needed for the project and when they are scheduled to be acquired. Hydraulic Project Approval - October 2023 Construction General Stormwater Permit - February 2024

Are Plans, Specifications & Estimates (PS&E) approved?

No

Please provide the date of approval, or the date when PS&E is scheduled to be submitted for approval (month and year)?

October, 2023

When is the project scheduled to go to ad (month and year)? February, 2024

Other Considerations

Describe any additional aspects of your project not requested in the evaluation criteria that could be relevant to the final project recommendation and decision-making process.

Development of the Veterans Memorial Park main trail is crucial to the overall success of Transit Connection Corridor Project, as this segment of trail is the only trail segment with direct connection to the Transit Center. Without the main trail construction, the development of the north connector and campus connector trails (part of MOU -30) will be null and void, as these segments utilize the main trail to access the transit center. See the Veterans Memorial Park- Master Plan for additional detail.

Describe the public review process for the project and actions taken to involve stakeholders in the project's development.

In response to the 2022 Recreation and Parks, Open Space (RPOS) Plan update multiple surveys were administered to the community, including surveys related to development of the Veterans Memorial Master Plan. Please see appendix A-F in the RPOS plan for survey information and responses.

The Veterans Memorial Park Master Plan is also included in the RPOS Plan, Appendix G.

Additionally attached, are letters of support for development of the Transit Connection Corridor Project, for which the Veterans Memorial Main Trail is a part of.

Please upload any relevant documents here, if they have not been uploaded previously in this application.

July 5, 2022

Mr. Eric LaFrance Public Works Director City of Mountlake Terrace 6100 219th Street SW, Suite 200 Mountlake Terrace, Washington 98043-4697

> Mountlake Terrace Town Center – Transit Connection Corridor FFY 2022 Congressionally Directed Spending (Earmarks) Federal Funding

Dear Mr. LaFrance:

WSDOT is pleased to advise you that the above-mentioned project was identified in the Consolidated Appropriations Act, 2022, to receive FHWA earmark funds. The federal funding is limited to the amount shown below:

Mountlake Terrace Town Center – Transit Connection Corridor \$2,000,000 Demo ID #: WA326

CFDA #: 20.205

Scope: Project title defines the scope of work on which the funds may be expended. *NOTE:* Funds require 13.5% non-federal match. Funds must be obligated by <u>September</u> <u>30, 2025</u>, or they expire. Also, funds must be expended by September 30, 2030, or the funds shall be cancelled and no longer available.

In order to meet state and federal requirements, the following are required:

- Project expenditures incurred before receiving notice from Local Programs of federal fund authorization are not eligible for reimbursement.
- Please refer to the Local Programs web page for detailed information, including: (<u>http://www.wsdot.wa.gov/localprograms/</u>)
 - ✓ Local Agency Guidelines (LAG) manual for the requirements regarding programming, authorization, reimbursement, etc.;
 - ✓ Projects utilizing federal funds must be included in your current Transportation Improvement Program (TIP) as a complete programmed project. Once your TIP amendment is approved, WSDOT will amend the Statewide Transportation Improvement Program (STIP);
 - ✓ Funding and billing forms;
 - ✓ Local Project Report is required to be completed by the end of June and December each year. To access the database you will need an account name and password. Your account name is **Mountlake Terrace** and your password is **MouTe061**. The password is case sensitive.

Eric LaFrance City of Mountlake Terrace Mountlake Terrace Town Center – Transit Connection Corridor July 5, 2022

- If the project is not actively pursued, or becomes inactive (23 CFR 630), the project is at risk of being cancelled and funds repaid.
- FHWA requires that all projects are ADA compliant upon completion or the federal funds must be repaid.

As a reminder, Local Programs requires all agencies to submit monthly progress billings to ensure timely reimbursement of eligible federal expenditures.

For assistance please contact Mehrdad Moini, your Region Local Programs Engineer at 206.440.4734.

Sincerely,

Jay Drye, PE Director Local Programs

ACCESS ENHANCEMENTS FUNDING AGREEMENT BETWEEN THE CITY OF MOUNTLAKE TERRACE AND THE CENTRAL PUGET SOUND REGIONAL TRANSIT AUTHORITY REGARDING THE LYNNWOOD LINK LIGHT RAIL EXTENSION PROJECT GA 0069-18

This Access Enhancements Funding Agreement ("Agreement") is entered into by and between the CITY OF MOUNTLAKE TERRACE, a Washington municipal corporation ("City"), and the CENTRAL PUGET SOUND REGIONAL TRANSIT AUTHORITY, a regional transit authority ("Sound Transit"). For and in consideration of the mutual covenants contained herein, the City and Sound Transit (referred to herein individually as a "Party" and collectively as the "Parties") do hereby agree as follows:

RECITALS

- A. The City is a non-charter optional municipal code city incorporated under the laws of the State of Washington, with authority to enact laws and enter into agreements to promote the health, safety and welfare of its citizens and for other lawful purposes.
- B. Sound Transit is a regional transit authority created pursuant to Chapters 81.104 and 81.112 RCW with all powers necessary to implement a high capacity transit system within its boundaries in King, Pierce, and Snohomish counties.
- C. The Sound Transit Board adopted Resolution 2015-05, selecting the route, profile, and stations for the Lynnwood Link Light Rail Extension project on April 23, 2015 (the "Alignment Resolution"). For the purposes of this Agreement, the term "Project" refers to that portion of the Lynnwood Link Extension project located within the City, including any required mitigation.
- D. In furtherance of Sound Transit's work to design and build the Project, the Parties entered into the Permit and Project Review Reimbursement Agreement on January 17, 2017 (the "**Permitting Agreement**"), which contains provisions relating to the City's administrative land use review and approval of the Project; and the Transit Way Agreement effective as of October 2, 2017, granting Sound Transit the right to own, operate, and maintain transit facilities in public rights-of-way in the City.
- E. Sound Transit's Board Resolution R2015-05 provides that Sound Transit, consistent with its system access policy, will partner with the City during Project final design to identify, prioritize and implement appropriate partnership opportunities for pedestrian, bicycle and vehicular access station enhancements focused generally within a quarter mile of the proposed Mountlake Terrace Transit Center Station (the "Station").

- F. On June 22, 2017, the Sound Transit Board adopted Motion 2017-93, Guidelines for Access Enhancement Partnering Agreements with the Cities of Seattle, Shoreline, Mountlake Terrace, and Lynnwood, that identified amounts and types of access enhancement funds that would be available for improvements within or adjacent to the Project in these cities (the "Access Enhancement Funds").
- G. Section 4.5 of the Permitting Agreement provides that the Parties' commitments regarding the agreed upon access enhancements will be documented in final design plans, concurrence letters, or separate agreement as appropriate before the conditional use permit application for the Project is submitted to the City.
- H. In order to improve future public access to the Station, the City has completed conceptual engineering and design of a pedestrian plaza near the Station site, and a trail though Veteran's Park, which has been identified as a priority in the 2015 Recreation, Parks and Open Space Master Plan and the Town Center Master Plan.
- I. The Parties desire to document their mutual commitments to work in a collaborative manner for the funding and construction of the above-described access enhancements, including coordination of the Parties' respective activities to avoid impacts to the schedule for the overall Project and the construction of the access enhancements.

AGREEMENT

NOW THEREFORE, in consideration of mutual promises and covenants herein contained, the Parties hereby agree to the following terms and conditions:

SECTION 1 FUNDING OF MULTIMODAL ACCESS ENHANCEMENTS

- 1.1 Sound Transit Access Enhancement Funds. Sound Transit Board Motion 2017-93 identifies the Station as a Suburban Station, and allocates a total of Two Million Dollars (\$2,000,000) to be provided by Sound Transit and Two Million Dollars (\$2,000,000) of matching funds to be provided by the City.
- 1.2 <u>Access Enhancement Projects.</u> The Access Enhancement Funds may be used for projects following Sound Transit's System Access Policy goals of a) increasing transit ridership and b) encouraging convenient and safe connections to Sound Transit services through all access modes. Sound Transit agrees that any combination of the multi-modal access improvement projects generally described and depicted in **Exhibit A** hereto (collectively, the "Access Enhancement **Projects**") satisfy the requirements of Motion 2017-93.
- 1.3 <u>City Contribution</u>. The City expended funds to be considered part of the City's contribution are identified in **Exhibit B**. Sound Transit accepts the funds encumbered or expended for City project identified in **Exhibit A** as meeting the

requirements for secured matching funds consistent with the guidelines in Motion 2017-93.

- 1.4 <u>Changes to Access Enhancement Projects.</u> The Parties may, by mutual agreement, agree to include other projects located generally within a quarter mile of the Station, so long as they are substantially equivalent to the Access Enhancement Projects described herein, and so long as the funding limitations and all other requirements of Motion 2017-93 and this Agreement are met.
- 1.5 <u>City to Construct Access Enhancement Projects; Coordination of Improvements.</u> The City shall be responsible for all steps necessary to design, construct, and implement the Access Enhancement Projects identified in this Agreement, including environmental review and mitigation, hazardous waste removal or mitigation, coordination of all required approvals and permits, acquisition of rightof-way, air rights and other property rights, community involvement, construction management, and ownership and maintenance of the Access Enhancement Projects. The Parties agree to work in good faith to coordinate completion of the Access Enhancement Projects.

The Parties may mutually agree during the term of this Agreement, and by a subsequent amendment, that to improve efficiencies Sound Transit will construct certain portions of the Access Enhancement Projects concurrent with Project construction, so long as the costs of said construction are reasonably reallocated consistent with the provisions of Motion 2017-93 and this Agreement. At a minimum, such an amendment will need to identify the responsibilities of the Parties regarding construction of the relevant portion of the Access Enhancement Project and include appropriate terms and conditions to address timely completion of the Access Enhancement Project without impacting the overall Project schedule. Sound Transit's Chief Executive Officer and the City Manager are hereby authorized to execute such an amendment without the need for further approval by the Sound Transit Board or the City Council. The City shall pay any costs that may occur that would increase the cost beyond Sound Transit's maximum funding obligation pursuant to Motion 2017-93.

1.6 <u>Environmental Review.</u> The City is and shall serve as the "Lead Agency" for purposes of any required compliance with the State Environmental Policy Act (SEPA), Ch. 43.21C, RCW, of both the Access Enhancement Projects and any other projects undertaken pursuant to this Agreement.

Upon execution of this Agreement, the City may invoice Sound Transit for the funding authorized in this Agreement for the Terrace Pedestrian Plaza Access Enhancement Project described in **Exhibit A**, which has already been subject to SEPA review by the City.

Where such environmental review has not been completed the City shall coordinate environmental review with Sound Transit, and provide Sound Transit with the opportunity for design review and coordination through construction of said improvements.

Before receiving Sound Transit Board approval for funding for any other Access Enhancement Projects (including any Access Enhancement Projects modified pursuant to Section 1.4 or that require additional SEPA review), the City shall complete the required environmental documentation for SEPA and design and obtain the necessary permits to construct the Access Enhancement Projects. The City will coordinate with Sound Transit in preparing environmental documents to ensure that SEPA review is adequate to support funding from Sound Transit dollars toward the Access Enhancement Projects. Sound Transit will cooperate with the City to complete the environmental documentation and secure the required permits but shall not be required to incur out of pocket costs (such as non-staff time) in connection with its efforts without the City providing reimbursement or a credit consistent with this Agreement. Nothing in this Section 1.6 shall be interpreted to, waive or replace the City's obligations set forth in Section 3 of the Permitting Agreement.

- 1.7 <u>Sound Transit Board Final Action.</u> Within ninety (90) days of the City's completion of the environmental review for any of the Access Enhancement Projects, Sound Transit staff will bring to the Sound Transit Board for its consideration an action authorizing funding for said Access Enhancement Projects. If approved by the Sound Transit Board, those Access Enhancement Projects shall be eligible for funding in accordance with the terms of Motion 2017-93 and this Agreement.
- 1.8 <u>Financial Reimbursement.</u> Sound Transit will pay the City an amount not to exceed Two Million Dollars (\$2,000,000) for the Access Enhancement Projects as described in this Agreement.
 - A. Invoice Form. The City shall submit invoices and supporting documentation for Sound Transit's payment of any portion of the Access Enhancement Funds. The invoices must include the appropriate purchase order number, which will be provided by Sound Transit after execution of this Agreement, a cover memo in the form of **Exhibit C** hereto, and supporting documentation detailing the work completed and associated costs.
 - B. Invoice Submittal and Payment. The City shall submit its invoices with the required documentation via email or mail to AccountsPayable@SoundTransit.org, or Sound Transit, Accounts Payable, 401 S. Jackson St., Seattle, WA 98104-2826. Invoices are payable thirty (30) days after Sound Transit's receipt of the invoice and acceptable documentation.
 - C. *Incomplete Invoices.* If Sound Transit determines that an invoice lacks sufficient documentation to support payment, Sound Transit will notify the

City of its determination and request that the City provide additional documentation. Sound Transit may withhold payment for contested portions of the invoice until supporting documentation for the contested portions are provided, however such approval shall not be unreasonably withheld.

D. Eligible Expenses. Eligible expenses shall include the City's direct expenses to design, construct, and implement the Access Enhancement Projects identified in this Agreement, including environmental review and mitigation, hazardous waste removal or mitigation, coordination of all required approvals and permits, acquisition of right-of-way, air rights and other property rights, community involvement, and construction management. Direct expenses includes consulting expenses.

SECTION 2 DISPUTE RESOLUTION

- 2.1 The Parties agree to use their best efforts to prevent and resolve potential sources of conflict at the lowest level possible.
- 2.2 Any disputes or questions of interpretation of this Agreement or the performance of either Party under this Agreement that may arise between Sound Transit and the City shall be governed under the dispute resolution provisions in this Section. The Parties agree that cooperation and communication are essential to resolving issues efficiently.
- 2.3 Either Party may refer a dispute to the dispute resolution process by providing written notice of such referral to the other Party's Designated Representative (hereinafter defined). The Parties agree to use their best efforts to resolve disputes arising out of or related to this Agreement using good faith negotiations by engaging in the following dispute resolution process should any such disputes arise:
 - 2.3.1 Level One. Sound Transit's Designated Representative and the City's Designated Representative shall meet to discuss and attempt to resolve the dispute in a timely manner. If they cannot resolve the dispute within fourteen (14) days after referral of that dispute to Level One, either Party may refer the dispute to Level Two.
 - 2.3.2 Level Two. Sound Transit's Executive Project Director and the City's Assistant City Manager or designee shall meet to discuss and attempt to resolve the dispute, in a timely manner. If they cannot resolve the dispute within fourteen (14) days after referral of that dispute to Level Two, either Party may refer the dispute to Level Three.
 - 2.3.3 Level Three. Sound Transit's Executive Director of Engineering Construction Management or Designee and the City's Manager or Designee shall meet to discuss and attempt to resolve the dispute in a timely manner.

2.4 Except as otherwise specified in this Agreement, in the event the dispute is not resolved at Level Three within fourteen (14) days after referral of that dispute to Level Three, the Parties are free to file suit, seek any available legal remedy, or agree to alternative dispute resolution methods such as mediation. At all times prior to resolution of the dispute, the Parties shall continue to perform any undisputed obligations and make any undisputed required payments under this Agreement in the same manner and under the same terms as existed prior to the dispute. Notwithstanding anything in this Agreement to the contrary, neither Party has an obligation to agree to refer the dispute to mediation or other form of dispute resolution following completion of Level Three of the process described herein. Such agreement may be withheld for any reason or no reason.

SECTION 3 DEFAULT, REMEDIES, AND ENFORCEMENT

- 3.1 <u>Notice of Default.</u> Neither party shall be in default under this Agreement unless it has failed to perform under this Agreement for a period of thirty (30) calendar days after written notice of default from any other party. Each notice of default shall specify the nature of the alleged default and the manner in which the default may be cured satisfactorily. If the nature of the alleged default is such that it cannot be reasonably cured within the thirty (30) day period, then the defaulting party shall initiate reasonable actions to cure within the thirty (30) day period; provided, however, such default shall not be deemed a cure unless and until the defaulting party diligently prosecutes such cure to completion.
- 3.2 <u>Remedies for Default.</u> The Parties reserve the right to exercise any and all of the following remedies, singly or in combination, and consistent with the dispute resolution and default Sections of this Agreement, in the event the other violates any provision of this Agreement: (1) Commencing an action for equitable or other relief, or (2) Seeking specific performance of any provision that reasonably lends itself to such remedy. All remedies set forth in this Section are cumulative and the exercise of one shall not foreclose the exercise of others. Neither Party shall be relieved of its obligations to comply promptly with any provision of this Agreement by reason of any failure by the other Party to enforce prompt compliance, and such failure to enforce shall not constitute a waiver of rights or acquiescence in the other Party's conduct.

SECTION 4 MUTUAL INDEMNITY

4.1 Each Party to this Agreement shall protect, defend, indemnify, and save harmless the other Party, its officers, officials, employees, and agents, while acting within the scope of their employment as such, from any and all costs, claims, judgment, and/or awards of damages, arising out of, or in any way resulting from the first Party's negligent or grossly negligent acts or omissions or its intentional misconduct or that of its officers, officials, employees or agents. Neither Party will be required to indemnify, defend, or save harmless the other Party if the claim, suit, or action for injuries, death, or damages is caused by the sole negligence of the other Party. Where such claims, suits, or actions result from concurrent negligence of the Parties, the indemnity provisions provided herein shall be valid and enforceable only to the extent of the Party's own negligence. Each Party agrees that its obligations under this subparagraph extend to any claim, demand, and/or cause of action brought by, or on behalf of, any of its employees or agents. For this purpose, each Party, by mutual negotiation, hereby waives, with respect to the other Party only, any immunity that would otherwise be available against such claims under the Industrial Insurance provisions of Title 51 RCW. In the event that a Party incurs any judgment, award, and/or cost arising therefrom, including attorneys' fees, to enforce the provisions of this section, all such fees, expenses, and costs shall be recoverable from the responsible Party to the extent of that Party's liability.

SECTION 5 GRANT FUNDING REQUIREMENTS

5.1 Sound Transit acknowledges that the City intends to use Sound Transit's funding under this Agreement to acquire matching grant funding for its Access Enhancement Projects. As a result, Sound Transit will use local funds, and not draw from its grant sources, to satisfy its funding obligations under Section 1, above. The Parties shall comply with all applicable requirements of its grant funding programs and agencies. The contracts and project documents for the Access Enhancement Projects shall expressly incorporate any applicable federal clauses and requirements into their respective terms. The Parties further acknowledge that any funding agency may request changes to this Agreement to comply with its funding requirements, and agree to cooperate in the negotiation of any such change.

SECTION 6 ASSIGNABILITY; BENEFICIARIES

6.1 This Agreement shall be binding upon and inure to the benefit of the parties hereto and their respective successors or assignees. Either party hereto may assign any monetary receivables due them under this Agreement; provided, however, such assignment shall not relieve the assignor of any of its rights or obligations under this Agreement. Neither Party may assign any other interest, obligation, or benefit in this Agreement or transfer any interest in the same, whether by assignment or novation, without prior written consent by the other Party.

SECTION 7 DURATION OF AGREEMENT

- 7.1 This Agreement shall take effect upon the last date of signature by the Parties as set forth below.
- 7.2 This Agreement shall remain in effect until all Access Enhancement Projects provided for herein are fully funded, constructed, and operational, unless sooner terminated.
- 7.3 The City Manager and the Chief Executive Officer of Sound Transit shall have the authority to extend the term of this Agreement by mutual consent or execute the amendment referenced in Section 1.5 without the need for further approval by the Sound Transit Board or the Mountlake Terrace City Council as long as any

additional amounts to be paid or spent under this Agreement are budgeted and within the Parties' authorized spending limits.

SECTION 8 WARRANTIES

- 8.1 By execution of this Agreement, the City warrants:
 - 8.1.1 That the City has the full right and authority to enter into and perform this Agreement, and that by entering into or performing this Agreement the City is not in violation of any law, regulation or agreement by which it is bound or to which it is bound or to which it is subject; and
 - 8.1.2 That the execution, delivery and performance of this Agreement by the City has been duly authorized by all requisite corporate action, that the signatories for the City hereto are authorized to sign this Agreement, and that upon approval by the City, the joinder or consent of any other party, including a court or trustee or referee, is not necessary to make valid and effective the execution, delivery and performance of this Agreement.
- 8.2 By execution of this Agreement, Sound Transit warrants:
 - 8.2.1 That Sound Transit has the full right and authority to enter into and perform this Agreement, and that by entering into or performing this Agreement Sound Transit is not in violation of any law, regulation or agreement by which it is bound or to which it is bound or to which it is subject; and
 - 8.2.2 That the execution, delivery and performance of this Agreement by Sound Transit has been duly authorized by all requisite corporate action, that the signatories for Sound Transit hereto are authorized to sign this Agreement, and that upon approval by Sound Transit, the joinder or consent of any other party, including a court or trustee or referee, is not necessary to make valid and effective the execution, delivery and performance of this Agreement.

SECTION 9 ADMINISTRATION OF AGREEMENT

- 9.1 This Agreement will be jointly administered by Sound Transit's Designated Representative and the City's Designated Representative.
- 9.2 Each Party shall be responsible for its own costs incurred in the negotiation and administration of this Agreement, unless otherwise provided in writing.

SECTION 10 DESIGNATED REPRESENTATIVES

10.1 To promote effective intergovernmental cooperation and efficiencies, each party shall designate a representative ("**Designated Representatives**") who shall be responsible for coordination of communications between the parties and shall act as the point of contact for each party. The Designated Representatives shall coordinate with the City's Coordinator and the Sound Transit Project Manager and

shall communicate regularly to discuss the status of the tasks to be performed, identify upcoming Project decisions and any information or input necessary to inform those decisions, discuss any substantial changes to the Project, and resolve any issues or disputes related to the Project, consistent with this Agreement. Each Party's Designated Representatives is identified in Exhibit D hereto.

10.2 Each Designated Representative is also responsible for coordinating the input and work of its agency, consultants, and staff as it relates to the objectives of this Agreement. The Parties reserve the right to change Designated Representatives by providing notice to the other party during the term of this Agreement.

SECTION 11 NOTICES

- 11.1 Unless otherwise provided herein, all notices and communications concerning this Agreement shall be in writing and addressed to the Designated Representative.
- 11.2 Unless otherwise provided herein, all notices shall be either: (i) delivered in person, (ii) deposited postage prepaid in the certified mails of the United States, return receipt requested, (iii) delivered by a nationally recognized overnight or same-day courier service that obtains receipts, or (iv) delivered electronically to the other party's Designated Representative as listed herein.

SECTION 12 AUDITS

12.1 During the period of construction of the Access Enhancement Projects and for a period of not less than six (6) years or that period established by the State Archivist (whichever is greater), from the date of final payment to the City, records and accounts pertaining to subjects of this Agreement and accounting are to be kept available for inspection and audit by representatives of Sound Transit, the State of Washington, and the federal government. Copies of the records shall be furnished to Sound Transit upon request and shall be maintained in accordance with a work order accounting procedure prescribed by the Division of Municipal Corporations of the State Auditor's Office.

SECTION 13 GENERAL PROVISIONS

- 13.1 This Agreement shall be interpreted, construed and enforced in accordance with the laws of the State of Washington. Venue for any action under this Agreement shall be Snohomish County, Washington.
- 13.2 In case any term of this Agreement shall be held invalid, illegal or unenforceable in whole or in part, neither the validity of the remaining part of such term nor the validity of the remaining terms of this Agreement shall in any way be affected thereby.
- 13.3 Time is of the essence in every provision of this Agreement. Unless otherwise set forth in this Agreement, any reference to "days" shall mean calendar days unless

otherwise noted. If any time for action occurs on a weekend or legal holiday, then the time period shall be extended automatically to the next business day.

- 13.4 This Agreement is made and entered into for the sole protection and benefit of the Parties hereto and their successors and assigns. No other person shall have any right of action based upon any provision of this Agreement.
- 13.5 No joint venture or partnership is formed as a result of this Agreement. No employees, agents or subcontractors of one party shall be deemed, or represent themselves to be, employees of any other party.
- 13.6 This Agreement has been reviewed and revised by legal counsel for all parties and no presumption or rule that ambiguity shall be construed against the party drafting the document shall apply to the interpretation or enforcement of this Agreement. The Parties intend this Agreement to be interpreted to the full extent authorized by applicable law.
- 13.7 The Parties shall not be deemed in default with provisions of this Agreement where performance was rendered impossible by war or riots, civil disturbances, floods or other natural catastrophes beyond its control; the unforeseeable unavailability of labor or materials; or labor stoppages or slow-downs, or power outages exceeding back-up power supplies. This Agreement shall not be revoked or a party penalized for such noncompliance, provided that such party takes immediate and diligent steps to bring itself back into compliance and to comply as soon as practicable under the circumstances without unduly endangering the health, safety, and integrity of both parties' employees or property, or the health, safety, and integrity of the public, public right-of-way, public property, or private property.
- 13.8 This Agreement may be amended only by a written instrument executed by each of the Parties hereto.
- 13.9 This Agreement constitutes the entire agreement of the Parties with respect to the subject matters of this Agreement, and supersedes any and all prior negotiations (oral and written), understandings and agreements with respect hereto.
- 13.10 Section headings are intended as information only, and shall not be construed with the substance of the section they caption.
- 13.11 In construction of this Agreement, words used in the singular shall include the plural and the plural the singular, and "or" is used in the inclusive sense, in all cases where such meanings would be appropriate.
- 13.12 This Agreement may be executed in several counterparts, each of which shall be deemed an original, and all counterparts together shall constitute but one and the same instrument.
- 13.13 In the event that any litigation or arbitration between the Parties arises out of or in connection with this Agreement, the substantially prevailing or successful Party

shall be entitled, in addition to other relief as may be granted, to a reasonable sum for all its reasonable attorneys' fees and costs in such proceedings.

IN WITNESS WHEREOF, each of the parties has executed this Agreement by having its authorized representative affix his/her name in the appropriate space below:

Terrace pedestrian plaza will connect Mountlake Terrace Light Rail Station's south
Terrace pedestrian plaza will connect Mountlake Terrace Light Rail Station's south
plaza to the future Transit Oriented Development, Terrace Station, to the south
navigating a considerable slope from 236th St. The plaza is anticipated to include
approximately 3,000 cubic yads of fill, 4,500 sf of paved ADA walkways, granite and
stone features, a water feature, plantings, irrigation, drainage and handrails, as
generally shown in the attached conceptual detail.
The trail system will connect the Mountlake Terrace Light Rail Station to the City's
Civic Plaza via 58th Avenue West. The trail system will include approximately 3,000 lf
of an 8' wide Asphalt paved ADA path through Veteran's park. The path will include
lighting, handrails and replace an existing 20' long bridge across a low lying drainage
area, as generally shown in the attached aerial and photo.
This improvement will extend the pedestrian sidewalk network north into a residential
area of the Lake Ballinger neighborhood adjacent to spillover Transit Center parking
demand is currently occurring. This project will include the design and construction of
sidewalk, curb, gutter, ADA ramp improvements along the west side of 64th Avenue
W. from 236th Street SW to 232nd Street within existing right-of-way. Completion of
this project would provide a continuous hard walking surface connecting to the future
Mountlake Terrace Light Rail Station.

Motion No. M2019-97

System Access Fund 2019 Awards

Meeting:	Date:	Type of action:	Staff contact:
Executive Committee Board	09/05/2019 09/26/2019	Recommend to Board Final action	Don Billen, Executive Director, PEPD Alex Krieg, Senior Manager – Planning & Integration

Proposed action

Awards the first round of System Access Funds to the local governments identified the not to exceed amounts determined by the Board and authorizes the chief executive officer to execute funding agreements consistent with these awards and in compliance with the System Access Fund program guidelines.

Key features summary

- The Sound Transit 3 (ST3) System Plan included a \$100M System Access Program, which included the System Access Fund that is "allocated equally among Sound Transit's five subareas to fund such projects as safe sidewalks and protected bike lanes, shared use paths, improved bus-rail integration, and new pick-up and drop-off areas that provide convenient access so that more people can use Sound Transit services."
- In November 2018, the Executive Committee of the Sound Transit Board directed staff to conduct a call for projects in 2019 that would be open to local governments and would make up to \$10M per subarea available between 2019 and 2025. The Executive Committee also established the evaluation criteria Sound Transit staff would use, which were divided between policy factors (customer experience, equity, connectivity, and safety and human health) and technical factors (funding plan and delivery plan).
- On February 19, 2019, Sound Transit opened the System Access Fund 2019 Call for Projects. On April 12, 2019, the call for projects closed and Sound Transit received 53 applications from 33 local governments requesting more than \$86M.
- Between mid-April and early July, Sound Transit evaluated the 53 applications against the evaluation criteria identified by the Executive Committee. This included a review of the application materials provided as well as follow-up discussions with each applicant about every project submitted.
- On July 25, 2019, staff briefed the Board of Directors on the applications received in the System Access Fund 2019 Call for Projects and the preliminary evaluation results.
- On July 26, 2019, Sound Transit opened a public comment period and launched online open house to receive rider and resident feedback on the 53 applications submitted. Sound Transit received 55 letters of support and a total of 4,063 survey responses, including 409 open-ended comments, during the public comment period and online open house. The public comment period and online open house closed on Friday, August 23, 2019.

- The action authorizes the CEO to enter into funding agreements with the local governments identified and at not to exceed amounts determined by the Board.
- All projects will be implemented by the local government identified, including the planning, environmental review, design, and construction. All completed projects will be owned, operated, and maintained by the local government.
- Sound Transit will enter into funding agreements closer to when local governments are able to advance projects and will closely monitor implementation once agreements are executed. Staff will only return to the Board should there be material changes to the project scope identified in the associated application, including requests for increased funding.
- Sound Transit staff will provide an annual report to the Executive Committee on the status of implementation of projects receiving an award in the System Access Fund 2019 Call for Projects.

Background

The Sound Transit 3 (ST3) System Plan included a \$100M System Access Program, which included the System Access Fund that is "allocated equally among Sound Transit's five subareas to fund such projects as safe sidewalks and protected bike lanes, shared use paths, improved bus-rail integration, and new pick-up and drop-off areas that provide convenient access so that more people can use Sound Transit services."

In November 2018, the Executive Committee of the Sound Transit Board directed staff to conduct a call for projects in 2019 that would be open to local governments and would make up to \$10M per subarea available between 2019 and 2025. The Executive Committee also established the evaluation criteria Sound Transit staff would use, which were divided between policy factors (customer experience, equity, connectivity, and safety and human health) and technical factors (funding plan and delivery plan).

On February 19, 2019, Sound Transit opened the System Access Fund 2019 Call for Projects. Immediately before and just after the call for projects opened, Sound Transit staff conducted outreach and workshops in each subarea with eligible applicants. On April 12, 2019, the call for projects closed and Sound Transit received 53 applications from 33 jurisdictions requesting more than \$86M.

Between mid-April and early July, Sound Transit evaluated the 53 applications against the evaluation criteria identified by the Executive Committee. This included a review of the application materials provided as well as follow-up discussions with each applicant about every project submitted. On July 26, 2019, Sound Transit opened a public comment period and launched an online open house to receive rider and resident feedback on the 53 applications submitted. Sound Transit received 55 letters of support and a total of 4,063 survey responses, including 409 open-ended comments, during the public comment period and online open house closed on Friday, August 23, 2019.

System Access policies and programs were evaluated programmatically in the Regional Transit Long-Range Plan Update Final Supplemental Environmental Impact Statement (November 2014). Local governments entering funding agreements with Sound Transit under the System Access Program will be lead agencies for system access project-level review under the State Environmental Policy Act.

Sound Transit will enter into these agreements closer to when local governments are able to advance projects and will closely monitor implementation once agreements are executed. Staff will only return to the Board should there be material changes to the project scope identified in the associated application, including requests for increased funding.

Fiscal information

The authorized project allocation to date for the Transit System Access Program is \$142,139,000. Within that amount, \$124,385,000 has been allocated to the third party phase. As the amount of the awards and the subarea distribution will be determined by the Board, the table below is provided for context.

Transit System Access Program

	Authorized				
	Project Allocation			Board Approved	Uncommitted /
(in thousands)	to Date	Board Approvals	This Action	Plus Action	(Shortfall)
Agency Administration	\$10,000	\$1,815	\$	\$1,814,996	\$8,185
Preliminary Engineering	2,000	114		113,965	\$1,886
Final Design					\$
Third Parties	124,385		0	0	124,385
Right of Way					\$
Construction	5,754				\$5,754
Construction Services					\$
Vehicles					\$
Total Current Budget	\$142,139	\$1,929	\$	\$1,929	\$140,210

Notes:

Amounts are expressed in Year of Expenditure \$000s.

* Board Approvals = Commitment and PO Contingency Remaining as of 8/27/19.

For detailed project information, see page 218 of the 2019 Financial Plan & Adopted Budget.

Public involvement

Following the completion of the policy and technical evaluation conducted by staff, Sound Transit launched a public comment period and online open house to seek rider and resident feedback on the 53 applications received and the initial evaluation results. The public comment and online open house period lasted between July 26, 2019 and August 23, 2019. In addition, Sound Transit received 55 comments letters and letters of support. An executive summary of the online open house results and a compilation of comment letters and letters of support are included as supplement to the staff report.

Time constraints

A one-month delay would not create a significant impact to the project schedule, but may have minor impacts for entering into agreements with local governments seeking funds in 2019.

Environmental review – KH 8/27/19

Legal review – AJP 8/29/19

Motion No. M2019-97

A motion of the Board of the Central Puget Sound Regional Transit Authority awarding the first round of System Access Funds to the local governments identified for the not to exceed amounts determined by the Board and authorizing the chief executive officer to execute funding agreements consistent with these awards and in compliance with the System Access Fund program guidelines.

Background

The Sound Transit 3 (ST3) System Plan included a \$100M System Access Program, which included the System Access Fund that is "allocated equally among Sound Transit's five subareas to fund such projects as safe sidewalks and protected bike lanes, shared use paths, improved bus-rail integration, and new pick-up and drop-off areas that provide convenient access so that more people can use Sound Transit services."

In November 2018, the Executive Committee of the Sound Transit Board directed staff to conduct a call for projects in 2019 that would be open to local governments and would make up to \$10M per subarea available between 2019 and 2025. The Executive Committee also established the evaluation criteria Sound Transit staff would use, which were divided between policy factors (customer experience, equity, connectivity, and safety and human health) and technical factors (funding plan and delivery plan).

On February 19, 2019, Sound Transit opened the System Access Fund 2019 Call for Projects. On April 12, 2019, the call for projects closed and Sound Transit received 53 applications from 33 local governments requesting more than \$86M.

Between mid-April and early July, Sound Transit evaluated the 53 applications against the evaluation criteria identified by the Executive Committee. This included a review of the application materials provided as well as follow-up discussions with each applicant about every project submitted. On July 25, 2019, staff briefed the Board of Directors on the applications received in the System Access Fund 2019 Call for Projects and the preliminary evaluation results. On July 26, 2019, Sound Transit opened a public comment period and launched online open house to receive rider and resident feedback on the 53 applications submitted.

Sound Transit received 55 letters of support and a total of 4,063 survey responses, including 409 openended comments, during the public comment period and online open house. The public comment period and online open house closed on Friday, August 23, 2019.

System Access policies and programs were evaluated programmatically in the Regional Transit Long-Range Plan Update Final Supplemental Environmental Impact Statement (November 2014). Local governments entering funding agreements with Sound Transit under the System Access Program will be lead agencies for system access project-level review under the State Environmental Policy Act.

Sound Transit will enter into these agreements closer to when local governments are able to advance projects and will closely monitor implementation once agreements are executed. Staff will only return to the Board should there be material changes to the project scope identified in the associated application, including requests for increased funding.

Motion

It is hereby moved by the Board of the Central Puget Sound Regional Transit Authority that the first round of System Access Funds is awarded to the local governments identified for the not to exceed amounts determined by the Board and the chief executive officer is authorized to execute funding agreements consistent with these awards and in compliance with the System Access Fund program guidelines.

APPROVED by the Board of the Central Puget Sound Regional Transit Authority at a regular meeting thereof held on September 26, 2019.

^{*}Indicates partial award in support of specific project elements †Indicates partial award in support of the overall project

FINANCIAL EXPLAINATION:

In 2018 the City formed an agreement with Sound Transit in the amount of \$2,000,000 (local funds) to support projects that increase ridership, encourage safe connections to transit services. The City contributed matching multi-million dollar funds which were expended to construct the 236th Main Street- Phase I project. The Sound Transit Access Enhancement funds (\$2M referenced above) will be used to support construction of paved, illuminated trails through Veterans Memorial Park and a pedestrian plaza near the Transit Center.

In 2019 the City was awarded additional funds (\$500,000) from Sound Transit's System Access program to support construction of the Main Trail, pedestrian pathway through Veterans Memorial Park providing connection with the light rail station.

In 2020 the City was awarded \$577,581 from Puget Sound Regional Council - Congestion Mitigation Air Quality fund to support construction of the Main Trail through Veterans Memorial Park. This project, at the time, was fully funded and programmed into the STIP as MOU-29 Veterans Memorial Park Trail Light Rail Access.

Funding that was programmed for MOU-29 consisted of:

\$300,000 - Local, (Sound Transit - Access Enhancement) PE

\$577,581 CMAQ (PSRC) CN

\$932,419 – Local, (\$500,000 Sound Transit - System Access & 432,419 Access Enhancement) CN

\$1,810,000 = Fully Funded Project

In 2022 the City was notified the encompassing Transit Connection Corridor Project (combines MOU-29 & MOU-30) would receive FHWA earmark funds in the amount of \$2,000,000, to support development of the project. The Transit Connection Corridor Project's scope of work includes: paved and illuminated pedestrian pathways through Veterans Memorial Park and a connection out to 236th Street SW, as well as development of a 4,000 square foot pedestrian plaza. A depiction of the full scope of the Transit Connection Corridor Project can be seen in the attached file called: TCCP Aerial Image. The Transit Connection Corridor Project combines MOU-29 (Main Trail through Veterans Memorial Park) with additional trail work at Veterans Memorial Park and development of a pedestrian plaza, which has been programmed as MOU-30.

Funding for MOU-30 consists of:

\$400,000 – Local, (Sound Transit Access Enhancement) PE

\$100,000 – Local, (Sound Transit Access Enhancement) ROW

\$2,800,000 - (\$2,000,000 Federal FHWA & \$800,000 Sound Transit Access Enhancement) CN

\$3,300,000 = Fully Funded Project

Design for the full scope of the Transit Connection Corridor Project started in mid-2022.

In early 2023, the City was notified the \$577,581 in PSRC CMAQ funding associated with MOU-29 would be revoked, leaving the main trail project with a deficit of funds.

With updated cost estimates from design work, the City is now applying for PSRC TAP funds to cover increased costs as well as the shortfall with the loss of CMAQ funding (\$577,581).

Funding for this project (application) consists of:

\$300,000 – Local (Sound Transit Access Enhancement) PE

\$500,000 – Local (Sound Transit System Access) CN

148,000 – Local (Sound Transit Access Enhancement) CN

1,117,000 – Federal (Transportation Alternatives Program) CN

\$2,065,000 = Fully Funded Project

Design work for the Main Trail through Veterans Memorial Park is progressing towards 90% (anticipated design completion End of August 2023). Environmental review (NEPA) is underway and should have a final decision by the end of August. Once SEPA determination is made (estimated Oct. 2023), a JARPA will be submitted for the HPA.

The City will be working with WSDOT Local Programs in the coming months to develop appropriate documents (project prospectus), set DBE goals and submit authorization package for review Advertisement is scheduled for February/March 2024.

Description:

This project will install a paved pedestrian walking surface along the Veterans Memorial Park Trail to provide a walking route with improved surface between the Mountlake Terrace Town Center, Civic Campus, and the Mountlake Terrace Transit Center, which is the site of the future light rail station. The project includes pedestrian lighting to improve pedestrian vision along the forested trail and a pedestrian bridge crossing a seasonal creek. This project will be constructed using matching funds provided by Sound Transit.

Dear Mayor Matsumoto Wright:

On behalf of the Cascade Bicycle Club and Washington Bikes I am writing to express support for the City of Mountlake Terrace's Community Project funding request of \$2 million for the Mountlake Terrace Town Center – Transit Connection Corridor Project. This project will create contiguous pedestrian infrastructure and connectivity between Town Center's employment and housing mix to a Light Rail Station scheduled to open in 2024.

Our mission at Cascade Bicycle Club and Washington Bikes is to bring people together to experience the joy of bicycling through transportation, recreation and friendship. We collaborate with members, volunteers and partners, like the City of Mountlake Terrace's Recreation and Parks Department, to inspire people to advocate for a safe, equitable and sustainable Washington state. We believe safety and mobility are a right and are confident that this project in Mountlake Terrace will lead to safer connections and access for all users of the transportation system.

As an organization, we champion spaces that foster physical and emotional wellbeing for bicyclists and pedestrians, and we're glad to support projects like this, which propel that wellbeing forward in the communities where we work.

Thank you for your consideration of this important federal funding request. We appreciate all that you do to improve Snohomish County.

We are pleased to be a partner with the City in support of this important community need.

Sincerely,

Alexandria Alston

Alexandria Alston State Policy Director Cascade Bicycle Club & Washington Bikes

Dear Mayor Matsumoto Wright:

On behalf of the Mountlake Terrace and Brier Chamber of Commerce and as President, I am writing to express support for the City of Mountlake Terrace's Community Project funding request of \$2 million for the Mountlake Terrace Town Center – Transit Connection Corridor Project.

This project will create contiguous pedestrian infrastructure and connectivity between Town Center's employment and housing mix to a Light Rail Station scheduled to open in 2024.

Our organization is excited to see the growth plans for Mountlake Terrace. Since our organization helps integrate businesses with the community residents this type of project is a great opportunity to further connect all aspects of the community together.

As Mountlake Terrace grows there will be a greater need to have safe and easy access for the community to patronize the city's businesses. The creation of additional pedestrian infrastructure will further support the already physically active community and encourage other residents to come out to see the new businesses that will become part of the town center.

Thank you for your consideration of this important federal funding request. We appreciate all that you do to improve Snohomish County.

We are pleased to be a partner with the City in support of this important community need.

Sincerely,

-24

Justin Elsner, President - Mountlake Terrace and Brier Chamber of Commerce Managing Attorney - Elsner Law Firm, PLLC

Mayor Kyoko Matsumoto Wright City of Mountlake Terrace 6100 219th Street SW, Suite 200 Mountlake Terrace, WA 98043

Dear Mayor Matsumoto Wright:

Community Transit is pleased to provide support for the City of Mountlake Terrace's FY 2021 Community Project Funding request of two million dollars for the Mountlake Terrace Town Center Transit Connection Corridor Project.

The Transit Connection Corridor Project will create a continuous pedestrian infrastructure and provide connectivity between the Town Center (employment and housing mix) and Sound Transit's Lynnwood Link light rail station scheduled to open in 2024. The Lynnwood Link Extension will bring light rail to Snohomish County providing a ten minute ride from Mountlake Terrace to Northgate for our community. The Mountlake Terrace Transit Connection Corridor Project increases access to this important regional transit hub.

We appreciate the City's commitment to infrastructure that improves access to public transit for the communities we serve.

Sincerely,

Rin Slaft

Ric Ilgenfritz Chief Executive Officer Community Transit

23000 Lakeview Drive, Mountlake Terrace, WA 98043

April 5, 2021

Dear Mayor Matsumoto Wright:

On behalf of the Mountlake Terrace Community Senior Center and as Executive Director, I am writing to express support for the City of Mountlake Terrace's Community Project funding request of \$2 million for the Mountlake Terrace Town Center – Transit Connection Corridor Project. This project will create contiguous pedestrian infrastructure and connectivity between Town Center's employment and housing mix to a Light Rail Station scheduled to open in 2024.

We support this request to bring accessibility and age-friendly improvements to our City. Improved accessibility and safety allows seniors to age actively in-place and engage more fully in our community. As older adults age and begin to drive less, this increased access to safe, affordable transit becomes paramount to staying engaged and involved in community. Linking transit, housing, employment, shops and services as outlined in this plan creates an inviting, walkable neighborhood for all to enjoy and encourage healthy exercise on your way to the train, restaurants or the library.

The beautiful Gateway Plaza, Main Street, Civic Campus, enhanced public spaces and pedestrian corridors linking it all will build a more vibrant, active, engaged place for people of all ages to live and visit as well as drawing new business and commuters choosing to move to Mountlake Terrace. We are excited to see these enhancements to our city!

Thank you for your consideration of this important federal funding request. We appreciate all that you do to improve Snohomish County.

We are pleased to be a partner with the City in support of this important community need.

Sincerely loth Zeler Elizabeth Ze

Executive Director, Mountlake Terrace Community Senior Center

March 26, 2021

Dear Mayor Matsumoto Wright:

On behalf of the Verdant Health Commission and as Superintendent, I am writing to express support for the City of Mountlake Terrace's Community Project funding request of \$2 million for the Mountlake Terrace Town Center – Transit Connection Corridor Project. This project will create contiguous pedestrian infrastructure and connectivity between Town Center's employment and housing mix to a Light Rail Station scheduled to open in 2024.

The Verdant Health Commission, DBA Public Hospital District #2, is dedicated to enhancing the health and wellness of our whole community. This project will increase resident access to walking paths and connect them to the Town Center.

We support this project because byways and paths that increase resident access to walking and physical activity will in the long-term increase the overall health of residents.

Thank you for your consideration of this important federal funding request. We appreciate all that you do to improve Snohomish County.

We are pleased to be a partner with the City in support of this important community need.

Sincerely,

Lisa Edwards, EdD Superintendent
