Implementing the Regional Open Space Plan: An Inventory of Existing Resources

What do we mean by resources?

- What funding programs are being used for easements and acquisitions?
- What tools and programs are being utilized for long term protections?
- What groups are already convening and coordinating?
- What entities are implementing the plan?

Total Conservation Needs									
	Working	Aquatic	Natural	Regional					
Farmland	Forests	Systems	Lands	Trails					
(Acres)	(Acres)	(Acres)	(Acres)	(miles)					
104,000	183,200	93,700	81,700	300					
463,000 acres									

What funding programs, incentives, and tools are being used?

- Local funding
- State funding
- Federal funding

What is this information telling us?

Well-trodden ground:

- Aguatic systems and natural lands are well covered
- Most convening groups work across more than one open space type; integration gets funded
- Many groups are convening about farmland protection in certain geographies

Potential gaps:

- By Open Space Type
 - Working Forest
 - Trails?
- By Geography
 - Kitsap County
- By Protection Tool
 - Are we fully utilizing incentives that keeps land private and protected?

Advancing the work:

- Identifying policy changes where funding programs are misaligned with goals or acquisition is not allowed
- Developing County programs and incentives
- Using similar language, goals, framework
- Testing assumptions and tracking progress
