

Puget Sound Regional Council

Transportation Policy Board

Thursday, July 11, 2024 • 9:30 – 11:30 a.m.

Hybrid Meeting - PSRC Board Room – 1201 Third Avenue, Suite 500, Seattle, 98101

Watch or listen

- Watch the meeting live at <https://www.psrc.org/watch-meetings>
- Listen by phone 1-888-475-4499, Meeting ID: 878 6268 1077, Passcode: 840998

Attend

- The public can attend meetings at [PSRC's offices](#).
- PSRC staff will be available to provide floor access 30 minutes before the meeting's start time and up to 15 minutes after the meeting's start time.
- If you arrive outside of these times, please call 206-464-7090 for assistance.

Provide public comment

- **Public comment must relate to an action or discussion item on the agenda. Each member of the public will have 2 minutes to speak.**
- **In-person**
Public comment may be made in person at PSRC's office.
- **Comment during the meeting by Zoom or phone: [Register here](#)**
To allow staff time to process requests, registration is required and closes at 8:00 a.m. the day of the meeting. Late registrations will not be accepted.
- **Written comments**
Comments may be submitted via email to cmoreau@psrc.org by 8:00 a.m. the day of the meeting. Comments will be shared with board members.

Public comments are public records and may be subject to disclosure pursuant to the Public Records Act, RCW Chapter [42.56](#).

1. Call to Order and Roll Call (9:30) - Mayor Dana Ralph, Chair

2. Communications and Public Comment

Public comment must relate to an action or discussion item on the agenda.

3. Report of the Chair

4. Director's Report

5. Consent Agenda - Action Items (9:45)

- a. Approve Minutes of Transportation Policy Board Meeting held June 13, 2024
- b. Routine Amendment to the 2023-2026 Transportation Improvement Program (TIP)

6. Action Item (9:50)

- a. 2024 Recommend Approval of the 2024 Annual Adjustment of PSRC's Federal Transit Administration (FTA) Funds – *Kelly McGourty, PSRC*

7. Action Item (10:05)

- a. Recommend Approval of Projects for PSRC's 2027-2028 Federal Highway Administration and Federal Transit Administration Funds – *Jennifer Barnes, Doug Cox and Charles Patton, PSRC*

8. Discussion Item (10:45)

- a. Coordinated Mobility Planning – *Jean Kim, PSRC*

9. Information Items

- a. Transportation Work Program Progress Tracker

10. Next Meeting: September 12, 2024, 9:30 – 11:30 a.m.

Major Topics for September:

- Release of 2025-2028 Regional TIP for Public Comment
- Regional Transportation Plan (2026-2050) Development Process

11. Adjourn (11:30)

Board members please submit proposed amendments and materials prior to the meeting for distribution. Organizations/individuals may submit information for distribution. Send to Casey Moreau, e-mail cmoreau@psrc.org or mail.

For language or ADA assistance at PSRC board meetings, please contact us at 206-464-7090 at least 72 hours in advance of the meeting. For TTY-based telecommunications relay service dial 711.

Puget Sound Regional Council

MINUTES

**Puget Sound Regional Council Transportation Policy Board
June 13, 2024
1201 3rd Ave., Ste 500, Seattle, WA 98101**

CALL TO ORDER AND ROLL CALL

The meeting was called to order at 9:32 a.m. by Mayor Ralph, Chair. Mayor Ralph stated that a video of the meeting would be streamed live as well as recorded. The video would be available for viewing on PSRC's website. A call-in number was provided on the meeting agenda for members of the public to call in by phone and listen to the meeting live.

Roll call determined attendance and that a quorum was present.

COMMUNICATIONS AND PUBLIC COMMENT

There was no public comment.

REPORT OF THE CHAIR

Mayor Ralph encouraged members to provide their feedback on today's topics.

DIRECTOR'S REPORT

Kelly McGourty, PSRC, shared that PSRC had a successful General Assembly on May 30. She thanked those that attended.

The board will continue discussions on the Regional Transportation Plan (RTP) over the next few months. The board will be briefed on the financial strategy and safety at today's meeting.

PSRC has had two meetings with Tribal partners to discuss how PSRC can support their work on safety and collaborate as part of the development of the Regional Safety Action Plan.

Ms. McGourty reminded the board that the project selection process is underway. Project recommendations and an assessment of the changes made to the process will be provided to the board next month.

CONSENT AGENDA

- a. Approve Minutes of Transportation Policy Board Meeting held May 9, 2024
- b. Routine Amendment to the 2023-2026 Transportation Improvement Program (TIP)

ACTION: The motion was made and seconded (Daughtry/Arnold) to adopt the Consent Agenda. The motion passed.

DISCUSSION ITEM: DEVELOPMENT OF THE REGIONAL SAFETY ACTION PLAN

Gary Simonson, PSRC, noted that the board was initially briefed on the scope of the Regional Safety Action plan in the fall of 2023. Mr. Simonson provided background on the purpose of the plan, how it's funded and the schedule for the development.

Current data collection and analysis efforts will support a data-driven State of the Region Report that is expected to be completed by the end of the summer. The Regional Safety Action Plan will identify strategies and tools within the context of various geographies and other typologies to improve safety in the region. Mr. Simonson noted that the Transportation Policy Board and the Executive Board will have opportunities to share feedback on these draft strategies and safety countermeasures in the coming months. The plan is projected to be adopted in the spring of 2025. Jurisdictions can then use the plan to address their unique contexts and specific safety issues.

Craig Helmann, PSRC, noted that PSRC is working with a nationally recognized consultant team on this work. He then shared an overview of safety data trends in the region. Data will be summarized in the State of the Region Report and included in the public outreach process. Mr. Helmann noted differences in the safety data related to typologies such as regional geographies, demographics and others. Data collected to support the plan will be available to members online in a web app where the information can be downloaded. As part of the plan a high injury network will be developed, and jurisdictions will be able to prioritize areas with the highest rates of serious injuries and traffic deaths.

Members asked about the inclusion in the data of various factors such as vehicle weight, speed and age as contributing factors. Members discussed the relevance of enforcement tools and driver education to addressing safety.

Veronica Sullivan, DKS Associates, gave an overview of the State of the Practice and best practices in the region to address safety. Ms. Sullivan discussed the Safe System

Approach and its principles. She shared examples of best practices such as smart traffic signs, safer vehicles technologies, education programs, speed limit policies, roundabouts and emergency response procedures.

Ms. Sullivan also shared the results of a survey conducted with jurisdictions and partners throughout the region and details of a recent focus group.

Mr. Simonson shared details of the public involvement plan, which will include community meetings, an online open house, focus groups and other engagement opportunities. Outreach to PSRC staff committees and other regional stakeholders will also be conducted.

Members asked about equity and the involvement of the Equity Advisory Committee (EAC). Staff shared that a major component of the engagement strategy is outreach to PSRC's Equity Focus Areas (EFAs) and events that are community oriented. Discussions and collaboration with the EAC on the outreach plan have been occurring.

Mr. Simonson closed the presentation with next steps and a reminder of the schedule and key deliverables over the next year.

DISCUSSION ITEM: REGIONAL TRANSPORTATION PLAN FINANCIAL STRATEGY

Kelly McGourty, PSRC, shared that today's presentation is a deeper dive into the RTP financial strategy. This will include federal and state requirements, how revenues are estimated and forecast, investments that are funded with the strategy and current and future revenue challenges.

Ben Bakkenta, PSRC, reviewed federal and state requirements for the plan, which must identify reasonable available sources and revenues to fund all investments. This is referred to as the financially constrained plan. Mr. Bakkenta explained current law revenues are those sources that are authorized and expected over the life of the plan. He also noted that new revenue sources can be identified. As part of the development of the plan, PSRC conducts a call for major capacity projects across modes and asks for information on timelines and costs. These investments are included in the plan's expenditures, along with local transportation system needs and estimates for maintenance, preservation and operations.

Mr. Bakkenta provided background on how PSRC estimates and forecasts current law revenues into the future and the categories of these revenue sources. He also shared details of the parameters considered when evaluating new revenue sources. These parameters were originally developed by the Transportation Futures Task Force convened in 2015-2016 and include factors such as expected yield, emissions reduction potential, political viability, costs and other constraints. The plan includes a menu of new revenue options included in the financial strategy.

Mr. Bakkenta reviewed the overall amount of the current plan at \$300 billion. The next plan to be adopted in 2026 will review and update the financial strategy assumptions and estimation. Mr. Bakkenta reviewed current plan revenues and expenditures. He noted gaps in current law revenues, particularly for local transit and how the new revenue assumptions meet those needs.

Ms. McGourty shared that there are policy choices built into the plan and financial strategy. She noted the substantial investment in additional transit service and fully funding the region's maintenance and preservation needs, in particular replacement of the aging ferry fleet. Ms. McGourty described the revenue challenges into the future, for example the declining revenues of the gas tax. Cars are getting more fuel efficient in general, and the advancing decarbonization of the system further impacts the revenue potential from the gas tax. In addition, in the future, a significant proportion of the gas tax will be dedicated to debt service payments. She also highlighted that the federal Highway Trust Fund balances are exhausted by 2028 without additional transfers.

Ms. McGourty reminded the board that the current plan investments are covered at 86% with current law revenues and 14% from new revenue sources. These figures will be updated with the new plan. Ms. McGourty shared that pricing strategies are a key component of PSRC's Four-Part Greenhouse Gas Strategy, as they both provide revenues and manage demand on the system. PSRC is in discussion with state legislators and others on the future of a road usage charge leading into the next legislative session and more information will be brought back to the board as it becomes available.

Ms. McGourty asked for feedback from members on the menu of new revenue options included in the current plan: are there new sources to consider, are some unviable, and are there other factors to consider. She noted that PSRC will be conducting sensitivity tests on the financial strategy to understand outcomes informing system performance, emissions, levels of investment and investment potential by different uses and operators.

Members discussed the timing of PSRC's analyses in comparison to decisions being made at the state level. Members discussed local on-demand transit options above and beyond service provided by transit agencies.

NEXT MEETING

The next meeting is scheduled for July 11, 2024.

ADJOURN

The meeting was adjourned at 11:32 a.m.

Puget Sound Regional Council

July 3, 2024

CONSENT AGENDA

To: Transportation Policy Board

From: Kelly McGourty, Director of Transportation Planning

Subject: **Routine Amendment to the 2023-2026 Transportation Improvement Program (TIP)**

IN BRIEF

Four agencies submitted five projects this month for routine amendment into the Regional TIP. The projects are summarized in Exhibit A. These projects were awarded local, state, and federal funding through various funding processes, such as the Move Ahead Washington funds managed by the Washington State Department of Transportation. PSRC staff reviewed the projects for compliance with federal and state requirements, and consistency with VISION 2050 and the Regional Transportation Plan.

RECOMMENDED ACTION

The Transportation Policy Board should recommend Executive Board adoption of an amendment to the 2023-2026 Regional TIP to include the projects as shown in Exhibit A.

DISCUSSION

Under the Infrastructure Investment and Jobs Act (IIJA), PSRC has project selection authority for all projects programming regional funds from the Federal Highway Administration (FHWA) - Surface Transportation Block Grant Program (STBG) and Congestion Mitigation and Air Quality Improvement Program (CMAQ) - and Federal Transit Administration (FTA) - Urbanized Area Formula Program (5307), State of Good Repair (5337) and Bus and Bus Facilities Formula (5339).

While PSRC does not have project selection authority for other types of federal, state or local funds, the Executive Board does have responsibility for adding these projects to the Regional TIP. Each project must comply with requirements regarding plan consistency, air quality and financial constraint. The attached Exhibit A illustrates the action needed to amend the Regional TIP.

The recommended action would approve the TIP amendment request based on a finding of consistency with VISION 2050, the Regional Transportation Plan, and the air quality conformity determination of the Regional TIP. Approval is also based on a determination that funding is reasonably expected to be available to carry out the project. Information describing plan consistency, air quality conformity and the funding basis for approving the request is further described below.

Consistency with VISION 2050 and the Regional Transportation Plan

The projects recommended for action were reviewed by PSRC staff and have been determined to be consistent with the multicounty policies in VISION 2050 and the Regional Transportation Plan.

Air Quality Conformity

The projects in Exhibit A were reviewed and it has been determined that a new air quality analysis and conformity determination is not required because each project falls into one or more of the following categories:

- It is exempt from air quality conformity requirements.
- It is an existing project already included in the current air quality modeling.
- It is a non-exempt project not able to be included in the regional model.

Funding Reasonably Expected to be Available

For the projects in Exhibit A, PSRC has confirmed that the funds are reasonably expected to be available.

PSRC's Project Tracking Policies

This month's amendment includes no project tracking actions.

Federal and State Fund Source Descriptions

The following federal and state funding sources are referenced in Exhibit A.

CSRF	State funds from the Coronavirus State Recovery Fund.
FHWA Discretionary	Other discretionary/competitive FHWA awards.
MAW	State funds from the Move Ahead Washington account.

For additional information, please contact Jennifer Barnes, Program Manager, at jbarnes@psrc.org or 206-389-2876.

		\$160,000	MAW				
		\$3,656,608	Total				

Puget Sound Regional Council

July 3, 2024

ACTION ITEM

To: Transportation Policy Board

From: Kelly McGourty, Director of Transportation Planning

Subject: **Recommend Approval of the 2024 Annual Adjustment of PSRC's Federal Transit Administration (FTA) Funds**

IN BRIEF

In April, PSRC was notified of our region's final allocation of federal fiscal year (FFY) 2024 Federal Transit Administration (FTA) formula funds. FTA requires that PSRC review the estimates used to program FTA funds with the actual allocation approved by Congress on an annual basis. Due to the final allocation being higher than our original estimates used for programming, there is an additional \$80.6 million available for distribution.

RECOMMENDED ACTION

The Transportation Policy Board should recommend Executive Board approval of the 2024 annual adjustments of PSRC's FTA funds as identified in Attachment B.

DISCUSSION

There are three urbanized areas (UZAs) in the region: the Seattle-Tacoma-Everett UZA, the Bremerton UZA and the Marysville UZA. Kitsap Transit is the only public transit agency in the Bremerton UZA, and Community Transit is the only public transit agency in the Marysville UZA, so these agencies recommend projects for the FTA funds earned within their respective UZAs. Approximately 86% of the FTA funds earned within the Seattle-Tacoma-Everett (STE) UZA are based on the service and operating characteristics of the nine transit agencies in the UZA. Per adopted regional policy, this portion of the funds is distributed to each public transit agency based on their earnings, called the "earned share" distribution. The remaining funds, approximately 14%, come to the region based on regional attributes such as population density.

PSRC originally distributed 2024 FTA funds to projects as part of the 2020 project selection process. At that time, the regional portion of funding was distributed via a regional competition and a preservation set-aside. As of 2023, regional funds are now distributed via an equity formula allocation; as such, any additional regional funds as part of the current adjustment process are distributed via the equity formula.

As a reminder, the STE UZA includes three agencies that are external to the UZA but provide service to the area: Kitsap Transit, Intercity Transit in Thurston County and Skagit Transit in Skagit County. Per adopted regional policy, these external agencies are able to access the FTA funds earned from the service they provide to the region.

At their June 26 meeting, PSRC's Transit Operators Committee (TOC) unanimously recommended approval to the Transportation Policy Board on PSRC's 2024 FTA annual adjustments. Per board direction, as part of this recommendation the committee reviewed the equity formula submittals for consistency with the purpose and intent of this funding, per the adopted criteria and project tracking policies.

The following attachments are provided:

- Attachment A provides information on PSRC's 2024 FTA allocation amounts, including adjustments within each UZA.
- Attachment B identifies the recommended funding adjustments to each agency and project.
- As part of the FFY 2024 adjustments process, Community Transit, Intercity Transit, Sound Transit and Washington State Ferries are requesting redistributions of their currently programmed 2024 earned share funding between projects. More detailed information about these requests can be found in Attachment C.
- Attachment D provides additional background information on how the projects proposed for the equity funding adjustments conform to the adopted policies.

PSRC staff reviewed all project submittals to affirm each project meets state, federal and regional eligibility requirements. For the equity formula project submittals, staff worked with each sponsor to confirm their projects meet the intent of the distribution policies. PSRC has also affirmed the projects submitted by the external transit agencies adhere to the adopted policies and confirmed the use of the funds will support service into the region.

For additional information, please contact Kelly McGourty at kmcgourty@psrc.org or 206-971-3601.

ATTACHMENT C: 2024 FTA REDISTRIBUTION REQUESTS

COMMUNITY TRANSIT

Community Transit requests to redistribute funds from its “Transit Revenue Vehicles 2023-2024” project to its “Facilities, Rehabilitation, Renovation and Maintenance” project.

Since April 2020 when the FY24 funding estimates were programmed, CT’s bus order plans have changed due to both pandemic related service reductions and their response to an increased state and regional emphasis on converting to zero emissions vehicles. This transfer of funds is needed to support the facility improvements necessary to operate zero emissions vehicles. The facility project will begin in 2024 and can utilize the FY24 funding efficiently. All of the bus order funding will now come from the new TIP project # CT-80 for Zero Emissions vehicle purchases. This project includes mostly FY25-26 funding that will be better timed for these orders.

INTERCITY TRANSIT

Intercity Transit requests to redistribute funds from its “Replacement Fixed Route Coaches,” “Capital Preventive Maintenance” and “Vanpool Vans” projects to the Pattison MOA Base Rehabilitation and Expansion project.

The three donor projects were identified in 2018 and represented the first time IT had been asked to program future projects as an External Earned Share agency. These were initially placeholder “bucket” projects and were anticipated for future adjustment. These “bucket” projects will continue but have been updated to reflect the FY 24 redistribution request over the original 2021 -2022 period. Following the initial future project allocation in 2018, IT received additional FTA competitive awards allowing all phases of the Pattison Base Project to advance. Pattison Base is a high priority project and cost increases have continued to impact the estimated cost. With this adjustment, PSRC's total participation will be at approximately 22% of the total project

SOUND TRANSIT

Sound Transit requests to redistribute funds from its “Regional Express Bus Program (2023-2024)” project to its “Sounder and Link State of Good Repair (2023-2024)” project.

The Regional Express Bus Program project is delayed and ST will backfill local funds to maintain the scope. The Sounder and Link State of Good Repair project is able to use the FY2024 funds more quickly.

WASHINGTON STATE FERRIES

Washington State Ferries requests to redistribute funds from its “Systemwide Vessel Preservation and Improvement” project to its “Systemwide ADA Preservation and Improvement” project.

There is an overall increase of funding to the Systemwide Vessel Preservation and Improvement project from 5339, but a redistribution of 5307 funding to the Systemwide ADA Preservation and Improvement project. The impact to the preservation project budget is minimal, and the ADA project is a priority for WSF.

ATTACHMENT D: 2024 EQUITY FORMULA ADJUSTMENTS

Agency	Project Title	Amount	Response
Community Transit	Zero Emissions Transit Revenue Vehicles 2023-2026	\$1,579,271	Additional funds to existing project: The additional funding will add one additional bus to the project for use on Swift BRT Gold Line expansion service benefiting Equity Focus Areas & Populations. The new total for the Equity funds portion of CT-80 will be increased from 9 to 10 buses total. The Swift BRT Gold Line will be Community Transit's first Swift BRT Line to exclusively use zero emissions buses. Adding an additional bus to the service mix will help to increase overall efficiency and reliability for Gold Line service and help us to reduce late or dropped service due to range and charging issues.
Everett Transit	2023-2024 Vehicle Preventive Maintenance	\$379,025	Modest amount of additional funds to an existing project already approved for Equity funding - consistent with adopted policies.
King County Metro	King County Metro Bus Acquisition 2023-2024	\$4,537,774	Additional funds to existing project, but new to Equity funds: The additional Equity funding will be used to assist in acquiring electric buses that will operate out of Metro's South Base Campus to replace diesel hybrid buses. The buses that will be acquired with this funding will allow Metro to provide reliable and safe service to the identified equity focus populations located in South King County. Metro's South Base Campus will have the first bases capable of supporting the battery electric buses operations. The Equity funding will help Metro replace these buses that have reached the end of their useful life and for which maintenance parts are becoming more difficult to acquire. Lack of needed maintenance parts has led to buses being held out of service reducing reliability on the routes operated out of our South Campus Base. The 26 routes that operate out of the South Campus Bases provide services to some of the highest populations of equity focus areas in King County. The use of these funds will allow Metro to maintain reliable and safe transit services to the identified equity focus populations which will allow them to access jobs and services.
Pierce Transit	Shuttle Revenue Vehicles 2023-2024	\$1,516,101	Additional funds to existing project: The Equity funds are needed as currently there are no other identified funds that will be used for the shuttle vehicle replacements. If Pierce Transit moves other resources to cover the cost of this project, other projects will also experience significant delays due to being underfunded. If Pierce Transit would not perform its ADA services optimally with new shuttle vehicles, then Pierce Transit will experience a loss in income from its ridership.

Seattle	Madison Corridor Bus Rapid Transit	\$336,911	Modest amount of additional funds to an existing project, but new to Equity funds: The project serves all six EFA populations at a higher level than the regional average. The project will provide direct, faster and more frequent high-capacity service to jobs and services.
Sound Transit	At-Grade Safety Enhancements	\$1,747,727	New equity project: This project will provide safety improvements for existing at-grade stations and pedestrian crossings in the Rainier Valley and SODO sections of the Link 1 Line alignment. All 6 EFA populations are above the regional average along this corridor.
Washington State Ferries	Systemwide ADA Preservation and Improvements	\$431,667	Modest amount of additional funds to an existing project already approved for Equity funding - consistent with adopted policies.

Puget Sound Regional Council

July 3, 2024

ACTION ITEM

To: Transportation Policy Board

From: Kelly McGourty, Director of Transportation Planning

Subject: **Recommend Approval of Projects for PSRC's 2027-2028 Federal Highway Administration and Federal Transit Administration Funds**

IN BRIEF

PSRC has project selection authority for several sources of funding from the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA). A project selection process is conducted every two years to distribute these funds via a competitive process detailed in the *Policy Framework for PSRC's Federal Funds*. Between February and June 2024, the project selection process to distribute approximately \$639 million of PSRC's 2027-2028 federal funds, as well as an additional \$63 million of 2025-2026 FHWA funds, was conducted. The projects recommended to receive these funds are identified in Attachments A through D.

RECOMMENDED ACTION

The Transportation Policy Board should recommend Executive Board approval of the projects recommended for PSRC's FHWA and FTA funds as identified in Attachments A through D, including the prioritized contingency lists of projects should additional funds become available prior to the next project selection process.

DISCUSSION

PSRC is required under federal legislation to have a documented process that provides the policies and guidance for how PSRC will approve, manage and administer projects to be selected to receive PSRC's federal funds. Prior to each funding cycle, the policies and procedures for the project selection process are reviewed and updated to reflect

current regional priorities and requirements and are documented in the *Policy Framework for PSRC's Federal Funds*.

The *2024 Policy Framework for PSRC's Federal Funds* was adopted by the Executive Board on January 25, 2024, and encompasses the detailed policies and procedures for conducting PSRC's project selection process, including details on the policy focus of support for centers and the corridors that serve them, the various set-asides and distribution amounts and other details. The project selection process, as directed by the *Policy Framework*, is based on the regional policies and outcomes as detailed in VISION 2050 and the Regional Transportation Plan.

The criteria used to evaluate submitted projects is based on these policies and outcomes, built from the foundation of supporting regional and local centers. The criteria include elements relating to accessibility, multimodal mobility, safety, equity and climate, as well as financial and project readiness. PSRC's boards spent a significant amount of time reviewing the criteria and incorporated changes for the 2024 process that strengthened safety, climate and equity considerations, among other updates. More information can be found in the *Policy Framework* and other materials on PSRC's [website](#).

PSRC released the Call for Projects for the 2024 project selection process in February for an estimated \$639 million of PSRC's federal fiscal year (FFY) 2027-2028 FHWA and FTA funds. In addition, approximately \$63 million of 2025-2026 FHWA funds is available for distribution, due to higher levels than previously estimated from the Bipartisan Infrastructure Law and per direction from PSRC's Executive Committee. This includes funds from FHWA's Carbon Reduction Program that had yet to be distributed.

A wealth of resources and guidance materials were included in the Call for Projects, and workshops were held in each of the four counties to review the materials and assist potential project sponsors. The Call for Projects and additional materials about the project selection process – including the *Policy Framework*, project evaluation criteria, submitted project applications and all other resources – are provided on PSRC's [website](#).

FHWA Competitions

PSRC conducts a shared process for FHWA funding between a regional competition and competitions within each of the four counties. For PSRC's FHWA regional competition, 30 projects requesting over \$140 million were submitted for the estimated \$90.9 million available. PSRC staff scored the project applications based on the adopted regional project evaluation criteria. The Regional Project Evaluation Committee (RPEC) reviewed the projects and PSRC staff scores at its meeting on May 23, 2024. After a full discussion, RPEC unanimously recommended the projects in Attachment A for funding, including a prioritized contingency list of projects should additional funds

become available prior to the next process. In addition to the project scores, RPEC also took other factors into consideration in preparing the recommendation, including geographic balance, agency balance, modal balance, project implementation, having a balance among project phases, project scalability, unique circumstances and project timing.

It is noted that the recommended funding exceeds the estimate for the regional FHWA competition as identified in the *Policy Framework* by approximately \$4.8 million. The committee had lengthy discussion about where a reduced award could be considered, or whether there was flexibility to increase the estimated amount of future funding. Some key points discussed were recent and ongoing delivery challenges that have led to larger gaps to be filled; uncertainty of 2027-2028 funds as they will be established in the next federal transportation act; the overage being a small percentage of the total; and the unique challenges this cycle with new funding sources and earlier funds to distribute. It was also noted that recommending the last two projects on Attachment A would improve geographic balance, with both having the ability to deliver early. Based on these factors and with PSRC staff consensus, the committee decided to recommend the full funding of the projects as identified, exceeding the estimate by about \$4.8 million.

Per the *Policy Framework*, approximately 66% of PSRC's FHWA funds is distributed through competitive processes conducted by each of the four countywide forums. A total of 104 projects requesting over \$176 million were submitted for the estimated \$142.9 million available, which includes the set-asides for bicycle and pedestrian investments and preservation, as well as the required minimum amount to be spent in rural areas.

Each countywide group adopts their own competitive processes, based on the *Policy Framework*, federal requirements and the regional project evaluation criteria, with some locally based customization; a summary of each countywide process is contained in the *Policy Framework*. The countywide project selection committees concluded their processes in June and are recommending the projects identified in Attachment B, including prioritized contingency lists of projects should additional funds become available prior to the next process.

FTA Distributions

There are three urbanized areas (UZAs) in the PSRC region: Bremerton, Marysville and Seattle-Tacoma- Everett (STE). PSRC coordinates with FTA and the public transit agencies operating within each UZA to conduct the process to distribute PSRC's FTA funds to projects. The majority of FTA funds come to the region based on the service and operating characteristics of each transit agency. Per the *Policy Framework*, this funding is distributed through an "earned share" process.

Since there is only one transit agency operating in the Bremerton and Marysville UZAs, respectively, funds are distributed to these two UZAs based on their earnings. Within the STE UZA, approximately 86% of the FTA funds are based on the service and operating characteristics of the nine transit agencies and are distributed via the earned share distribution process. The remaining funds, approximately 14%, come to the region based on regional attributes such as population density. As of 2023, these regional funds are disbursed through an equity formula allocation.

The equity formula uses a focused and intentional methodology that looks at all transit services being provided to the region's equity focus populations and distributes funds accordingly. The six equity focus populations include people of color, people with low incomes, seniors, youth, people with disabilities and people with limited English proficiency. Agencies provide a description of how each project submitted for the equity formula funding addresses the equity criterion established in the *Policy Framework*. This includes how the project supports and improves equity, including the relationship to identified equity focus area populations within the project area. It also includes how the project improves mobility and access to opportunities for the identified populations, among other criteria. When applicable, agencies also address how each project adheres to the recently updated Project Tracking Policies, which allow certain exceptions for the distribution of funding.

PSRC staff reviewed all project submittals to affirm each project meets state, federal and regional eligibility requirements. For the equity formula project submittals, staff worked with each sponsor to confirm that their projects meet the intent of the distribution policies.

At their meeting on June 26, 2024, the Transit Operators Committee (TOC) unanimously recommended the projects to receive PSRC's 2027-2028 FTA funding. Attachment C contains the projects to receive the \$457 million of FTA earned share funding as identified by each transit agency within each of the three UZAs. Attachment D contains the projects to receive the \$64 million of FTA equity formula funding.

NEXT STEPS

Once the Board approves the projects to receive this funding, PSRC will begin work on the preparation of the Draft 2025-2028 Regional Transportation Improvement Program (TIP), scheduled to be released for public comment in September. In October, the Transportation Policy Board will make its final recommendation on the 2025-2028 Regional TIP, and the Executive Board is scheduled to take final action on October 24, 2024.

At the meeting on July 11, the Transportation Policy Board will be provided additional details on the projects recommended for funding as identified in Attachments A through D. Staff will also provide observations regarding the impact of the changes adopted in the *2024 Policy Framework*.

For more information, contact Kelly McGourty at 206-971-3601 or kmcgourty@psrc.org or Jennifer Barnes at 206-389-2876 or jbarnes@psrc.org.

Congestion Mitigation and Air Quality Improvement Program Funding (CMAQ) / Carbon Reduction Program (CRP)							
Sound Transit	Graham Street Station - Design	Preliminary Engineering / Design	75	\$8,200,000	\$8,200,000	CMAQ	Construct a new infill light rail station including landscaping, drainage, utilities, streetlights, pedestrian and bicycle safety improvements, and bus stop improvements.
King County Metro	RapidRide K Line Project	Preliminary Engineering / Design	64	\$8,200,000	\$8,200,000	CMAQ	Construct infrastructure for RapidRide K Line, which will operate between the Kirkland Totem Lake Regional Growth Center and the Bellevue Eastgate Park & Ride. Project elements include construction of bus lanes, queue jumps, turning restrictions, bus bulbs, signal timing optimization, bus stop spacing management, transit signal priority, turn lanes, traffic channelization improvements, new RapidRide stations, and layover improvements to enhance bus operations.
Sound Transit	Boeing Access Rd Station - Vehicles	OTH	60	\$8,200,000	\$8,200,000	CMAQ	Purchase two light rail vehicles needed to accommodate expanded service that will result from opening of the new station.
King County Metro	Regional Campaigns & Partner/Community TDM Capacity Building	OTH	57	\$5,000,000	\$5,000,000	CMAQ	Implement Transportation Demand Management programs utilizing a mix of tools including marketing, outreach, education, data, incentives, and partnerships.
Seattle	Harrison & Mercer Transit Access Project	Construction	53	\$8,200,000	\$8,200,000	CMAQ	Construct a new transit corridor within and between the Uptown and South Lake Union Regional Growth Centers, providing direct transit access to the future SLU Light Rail Station. Improvements may include trolley wire infrastructure, bus lanes, lane markings, pavement restoration, signal optimization for transit, bus stops and bus stop amenities, and improvements to the public realm that will facilitate a transit- and pedestrian prioritized street.

Sponsoring Agency	Project Title	Phase	Score	Amount Requested	Amount Recommended	Source	Description
Community Transit	Zero Emissions Bus Purchase	Other	42	\$8,200,000	\$8,200,000	CMAQ & CRP	Purchase about seven Battery Electric buses and associated charging equipment to replace existing diesel fuel buses that have exceeded their useful life and begin Community Transit's journey toward a full fleet transition to Zero Emissions.

TOTAL: \$46,000,000

Surface Transportation Block Grant Program (STBG) / Carbon Reduction Program (CRP)							
Bellevue	NE Spring Boulevard Zone 3, Arterial/Multimodal Network Completion	Preliminary Engineering / Design	75	\$3,500,000	\$3,500,000	STBG	Construct a new two-lane road connection to complete a gap in the Bel-Red area. The project will include two vehicle lanes, sidewalks and protected bike lanes on both sides, safety elements including illumination, signals and pavement marking, a fish-passable stream crossing, stormwater facilities, and underground utilities.
Tacoma	Puyallup Avenue Corridor Improvements with Pedestrian Access to Fife	Construction	73	\$5,465,000	\$5,465,000	STBG	Reconstruct roadway with complete street elements including sidewalks/curb ramps, curb bulb-outs, crosswalks, signals, lighting, landscaping, bus stops, upgraded utilities, and a transit lane, as well as minor improvements to side streets to reorient/increase functionality of parking spaces, and other street amenities. The pavement design for driving lanes will meet heavy haul standards. Bike lanes/active transportation facilities will also be constructed with other State funds, connecting to WSDOT's regional trail improvements along SR 167.

Sponsoring Agency	Project Title	Phase	Score	Amount Requested	Amount Recommended	Source	Description
Seattle	West Seattle Link Extension (WSLE) Station Access	Preliminary Engineering / Design	72	\$5,465,000	\$5,465,000	CRP	Construct non-motorized access improvements to four new Link light rail stations, as planned by Sound Transit's West Seattle Link Extension (WSLE) project. Station access improvements include new sidewalks (including new ADA ramps where needed), protected bike lanes and neighborhood greenways (including required pavement repair and replacement), enhanced crossings, pedestrian plazas, multi-use trail enhancements, and other safety measures and amenities. Potential rechannelization along a segment of Alaska Street (minor arterial) to provide bus-only lanes will be evaluated.
Kent	Meet Me on Meeker: Interurban Trail to 6th Avenue S Connection	Construction	70	\$2,500,000	\$2,500,000	STBG	Construct a multimodal promenade along the south side of West Meeker Street that includes a two-way, separated bikeway and sidewalk with buffer zones, reducing four vehicle lanes to two. The project includes curb bulb-outs, pedestrian amenities, and curb extensions at the corner of 6th Avenue S and W Meeker Street.
Pierce County	112th Street E	Right-of-Way	68	\$5,465,000	\$5,465,000	STBG	Add a center turn lane, paved shoulders, cement concrete curb, gutter, sidewalk, and bike lanes. Improvements will include street lighting, fiber optic interconnect, an enclosed storm drainage conveyance system, storm drainage treatment facilities, fish-passable culvert underpasses, and reconstruction of the existing traffic signal systems at Golden Given Rd E and 18th Ave E
Renton	Rainier Ave Corridor Improvements - Phase 5	Preliminary Engineering / Design	67	\$3,196,076	\$3,196,076	CRP	Reduce the vehicle lanes between NW 3rd Place to the northern city limits and provide bike facilities, sidewalk widening, pedestrian scale illumination, and a multiuse trail that will extend the Lake Washington Loop trail to the northern city limits Design will consider access management and a center median where feasible to provide traffic calming. Phase 5 of the Rainier Avenue Corridor Improvements is the final phase of the planned corridor improvement.

Sponsoring Agency	Project Title	Phase	Score	Amount Requested	Amount Recommended	Source	Description
WSDOT	SR 99/148th St SW Vic To Airport Rd Vic - Corridor Improvement	Preliminary Engineering / Design	66	\$4,275,122	\$4,275,122	STBG	Provide Business Access Transit (BAT) lanes on SR 99 between 148th Street SW and Airport Way in unincorporated Snohomish County. The project includes the building or rebuilding of roadway shoulders as managed BAT lanes, ADA improvements, bicycle and pedestrian facilities separated from travel lanes, new and improved signalized pedestrian crossings, and other safety improvements, transit speed and reliability improvements, and improved lighting.
Kitsap County	Ridgetop - Mickelberry to Myhre Phase 1	Construction	65	\$5,460,000	\$5,460,000	STBG	The multimodal corridor project will add a travel lane and bike lane in each direction, widen sidewalks, improve Mickelberry and Myhre intersections, add a midblock intersection, lighting, and ITS. Phase 1 will construct the Ridgetop & Myhre intersection, signals, lighting, ITS system, a second eastbound lane and uphill bike lane to the vicinity of Sid Uhinck Drive, and stormwater facilities to the vicinity of Mickelberry Road.
Kirkland	NE 128th Street Bike-Ped Improvements	Construction	63	\$986,000	\$986,000	CRP	Install bicycle safety improvements between 116th Ave NE and Totem Lake Boulevard NE. Project includes addition of 2-foot buffers with pylons to existing bike lanes, complemented by green conflict pavement markings, relocation of the eastbound bike lane to the south curb at NE 128th Street/Totem Lake Blvd NE, new bike boxes at NE 128th Street/116th Avenue NE intersection, and signal phasing improvements including protected bike phases at both intersections.
Auburn	East Valley Highway Widening	Construction	61	\$5,465,000	\$5,465,000	STBG	Provide multimodal improvements from south of the East Valley Access Road to Lakeland Hills Way. The project scope includes intersection improvements, the addition of a separated non-motorized trail, addition of one northbound and one southbound through lane, center turn lane, illumination, stormwater improvements, utility relocation, and installation of a dynamic message sign.

Sponsoring Agency	Project Title	Phase	Score	Amount Requested	Amount Recommended	Source	Description
Fife	I-5/Port of Tacoma Road Interchange Improvement Project	Construction	59	\$2,439,606	\$2,439,606	STBG	Retain the existing Port of Tacoma Road overcrossing of I-5 and construct a new overcrossing of I-5 at 34th Avenue E. The interchange will be reconstructed to create a split diamond couplet interchange with Port of Tacoma Road (southbound) and 34th Avenue E (northbound) paired as one-way couplets between 20th Street E and 12th Street E. Funding is requested for Phase 2a conversion of Port of Tacoma Road to a one-way southbound road.
Lynnwood	Poplar Way Extension Bridge	Construction	62	\$5,465,000	\$5,465,000	STBG	Construct a new multimodal six-lane bridge over I-5 between 196th St SW (SR 524)/Poplar Way and 33rd Ave W/Alderwood Mall Blvd. The bridge will include a sidewalk (west side) and shared use path (east side). The intersecting streets will be modified to meet the profile and width of the new bridge, and a tunnel (three-sided concrete box structure) will be constructed to allow the Interurban Trail to pass beneath the new bridge.
TOTAL:					\$49,681,804		

RECOMMENDED PRIORITIZED CONTINGENCY LIST

Sponsoring Agency	Project Title	Phase	Score	Amount Requested		Description
Congestion Mitigation and Air Quality Improvement Program Funding (CMAQ)						
Maple Valley	SR 169 Pedestrian Bridge at SE 258th Street	Construction	28	\$3,500,000		Construct an approximately 100-ft non-motorized bridge across SR 169 near SE 258th Street. At the east end of the bridge, the project will include an elevator and/or an ADA ramp. At the west end, the project will include an elevator to the Legacy Site near the farmer's market. The bridge will include pedestrian-scale illumination and may include a digital message board on the bridge span to provide intelligent transportation system (ITS) updates to drivers on SR 169.
Sponsoring Agency	Project Title	Phase	Score	Amount Requested		Description
Surface Transportation Block Grant Program (STBG)						
Seattle	Aurora Ave Transit Corridor and Safety Upgrades	Preliminary Engineering / Design	59	\$5,465,000		The overall corridor project will reconfigure the existing roadway between the city's downtown commercial center and its northern city limits. Primary improvements include new sidewalks and controlled pedestrian crossings, new curb ramps, new and upgraded signals, street trees, access management, transit-focused re-channelization, and transit facility upgrades. Funding request is for the first segment, from approximately N 90th St to N 105th St.
Marysville	156th St NE Connector	Construction	54	\$5,465,000		Construct a 5-lane section of 156th between the Marysville Corporate Center development and 152nd Street NE, and a 3-lane section of 47th Ave NE between 152nd St NE and the MCC property to the north. The project includes curb and gutter, landscape strip, stormwater facilities, a roundabout, illumination, signage and pavement markings, a shared used path on the north/east side and sidewalk on the south/west side.
Kirkland	116th Avenue NE/NE 87th St Intersection Improvements	Construction	51	\$1,378,400		Install a mini-roundabout at the intersection, which includes the driveway access to the future pick-up and drop-off area for the Sound Transit STRIDE bus rapid transit station on I-405 at NE 85th St. This project includes striping, signage, curbs, stormwater improvements, landscape restoration, sidewalks, and ADA ramps, and fill gaps in the existing sidewalk

Sponsoring Agency	Project Title	Phase	Score	Amount Requested		Description
Snohomish County	Poplar Way: Larch Way to Lynnwood City Limits	Preliminary Engineering / Design	47	\$2,000,000		Construct two travel lanes and a center turn lane, integrating bike facilities, curbs, planters, and sidewalks on both sides. Modifications to two existing signalized intersections and/or considering a roundabout to enhance safety and operations will be explored. This project has been developed to accommodate additional pedestrian, bicycle, and vehicle traffic expected to result from the City of Lynnwood's Poplar Way Overcrossing project.
Arlington	180th Street Connector	Construction	46	\$5,000,000		Construct a new multimodal road that will provide access to the west side of the Arlington Airport in the Cascade Industrial Center. It will connect to Airport Blvd on the east with a roundabout, and to Smokey Point Blvd on the west with a stop-controlled intersection (planned to be a roundabout in the future). The road will have one vehicle lane in each direction, with a sidewalk on one side and a multiuse path on the other, pedestrian amenities, and new water and sewer utilities.
Port of Seattle	Air Cargo Road Reconstruction & Non-motorized Improvements	Construction	45	\$5,000,000		Rehabilitate existing pavement and install pedestrian and bicycle facilities between S 154th St and S 166th St. The project scope includes illumination, pedestrian and bicycle facilities, transit improvements, signage, storm drainage, and landscaping.
Sumner	166th St Widening and Intersection Improvements	Right-of-Way	45	\$2,249,000		Widen from a two/three lane section to four lanes, and construct roundabouts at the SR 410 westbound ramps and at 64th Street E. The project will include ADA-compliant pedestrian facilities to provide new north-south sidewalk access through the interchange. An existing culvert carrying Salmon Creek will be upgraded as needed.
Snohomish County	North Creek Trail Phase 2: Waxen Road to 183 St SE	Construction	43	\$5,000,000		Extend the existing North Creek Regional Trail from Waxen Road to 183rd St SE (North Creek Park). Project elements include construction of a paved section of the trail to separate it from the road.

Sponsoring Agency	Project Title	Phase	Score	Amount Requested		Description
WSDOT	SR 167/SR 512 to Ellingson Rd Vicinity - SB Congestion Management	Preliminary Engineering / Design	43	\$5,465,000		Extend the SR 167 express toll lanes in the southbound direction to the SR 410/SR 512 interchange. Eight fish passage barriers will be replaced with fish passable structures. This project is a segment of the 50-mile managed lanes system on I-405/SR167 and connects to the SR 167 Gateway Extension Project.
Northwest Seaport Alliance	Port Community System	Other	39	\$1,500,000		Implement improvements to the Port Community System that serves the international cargo terminals at the Ports of Seattle and Tacoma to make the appointment system more user-friendly and accessible to small trucking operations or independent operators. Improvements will include 1) a web and mobile application, 2) a terminal-agnostic appointment booking, merging, and management system, 3) check-in functionality, and 4) location-based tracking.
Port of Bremerton	Airport Way Phase 2.2	Construction	39	\$3,196,084		Construct of Phase 2.2 of Airport Way from Old Clifton Road to the south end of the Bremerton National Airport with future connection planned to Lake Flora Rd and the SR-3 Freight Corridor. The roadway includes two vehicle lanes, pervious concrete bicycle lanes and shoulders, a separated pervious asphalt pedestrian path, grass lined stormwater swales, and installation of a wildlife fence.

PROJECTS RECOMMENDED FOR FUNDING

KING COUNTY PROJECTS RECOMMENDED FOR FUNDING

LARGE JURISDICTION PROGRAM

Sponsor	Title	Funding Source	Amount	STBG/CMAQ Score (out of 100)	Phase	Description
Tukwila	Tukwila and South King County TDM	CMAQ	\$550,000	48/69	Other	Implement a TDM program to include outreach and education, incentives and rewards, partnerships with non-profits and community-based organizations, information on transit fares, employer consultations on transportation benefits and telecommute programs, purchase and installation of bike racks and wayfinding signage, language translation, interpretation, and transcreation of materials, engagement with transportation service providers, and support for policy and institutional reforms that advance TDM priorities.
Issaquah	Newport Way NW Improvements – Maple Street to West Sunset Way	STBG	\$5,460,000	71/NA	Right-of-Way	Construct roundabouts at the NW Juniper Street, NW Holly Street, and NW Dogwood Street intersections; signal modifications at the Sunset Way and Maple Street intersections with Newport Way NW; an additional southbound lane from NW Maple Street to the vicinity of Holly Street; sidewalk on both sides of Newport Way NW and protected bike lanes, both with a landscaped buffer. Work also includes ADA improvements, rectangular rapid flashing beacons, signage, channelization, illumination, wetland mitigation, stormwater detention and treatment, and underground utility maintenance.
Seattle	Aurora Ave Transit Corridor and Safety Upgrades	STBG	\$5,460,000	66/57	Preliminary Engineering / Design	Construct improvements that may include new sidewalks and controlled pedestrian crossings, new curb ramps, new and upgraded signals, street trees, access management, transit-focused rechannelization, and transit facility upgrades from N 90th Street to N 105th Street.
Shoreline	N 175th Street, Stone Avenue N to I-5	STBG	\$5,460,000	66/NA	Right-of-Way	Reconstruct roadway with two lanes in each direction and add raised center medians, new pedestrian beacons, turn pockets, a combination of shared use paths and buffered bike lanes, curb, gutter, sidewalk extensions, planter strips, illumination, and retaining walls.

Federal Way	BPA Trail - City Center Extension	CMAQ	\$1,600,000	63/66	Right-of-Way	Construct paved shared use path along the north side of S 234th Street and the west side of 23rd Avenue S with pedestrian scale lighting, crossing improvements, landscape/hardscape buffer, and associated storm drainage. Work also includes roadway restriping, relocation of curb and sidewalk, and removal of on-street bike lanes.
Seattle	Graham St Station Access & Complete Street	CMAQ & CRP	\$3,752,835	61/61	Preliminary Engineering / Design	Construct improvements that may include new bus stops and bus stop amenities, upgraded sidewalks, protected bicycle lanes, new and upgraded pedestrian crossings, pavement restoration, lane markings, signal improvements including transit signal priority and leading pedestrian intervals, channelization improvements to increase visibility and safety for non-motorized travelers, storm water drainage improvements, pedestrian lighting, street trees, and landscaping
Seattle	N 130th St - Bitter Lake to Haller Lake Mobility Improvements	CMAQ	\$5,460,000	61/56	Preliminary Engineering / Design	Construct improvements that may include new bus stops and bus stop amenities, upgraded sidewalks, protected bicycle lanes, new and upgraded pedestrian crossings, pavement restoration, signal improvements including transit signal priority and leading pedestrian intervals, channelization improvements to increase visibility and safety for non-motorized travelers, storm water drainage improvements, pedestrian lighting, street trees, and landscaping.
Bellevue	120th Avenue NE (Stage 4), North Segment	STBG	\$5,460,000	61/NA	Construction	Construct three lane roadway with two travel lanes and a center turn lane, protected bike lanes and wide sidewalks on both sides of the roadway, illumination, and signage. Work also includes signal enhancements, ITS, installation of stormwater drainage, flow control and water quality facilities, and replacement of a fish barrier with a wildlife and fish passable structure.
SeaTac	34th Avenue S Phase 2	CMAQ	\$2,956,293	58/60	Right-of-Way	Construct roundabout with access to the future Sound Transit STRIDE bus rapid transit station on I-405 at NE 85th Street, install roadway striping, sidewalks, ADA ramps signage, curbs, stormwater improvements, and landscape restoration.
SeaTac	S 204th Street Improvements Project	STBG	\$2,000,000	57/NA	Construction	Widen the roadway, adding a parking lane, a bike lane, sidewalks, and crosswalk and ADA enhancements on S 204th Street and 32nd Avenue S.
Auburn	Lea Hill Road/104th Avenue SE Roundabout	STBG	\$2,138,000	54/45	Construction	Construct single-lane roundabout, replacing the existing span-wire signal.

Kirkland	116th Avenue NE/NE 87th St Intersection Improvements	STBG	\$1,378,400	51/36	Construction	Construct roundabout with access to the future Sound Transit STRIDE bus rapid transit station on I-405 at NE 85th Street, install roadway striping, sidewalks, ADA ramps signage, curbs, stormwater improvements, and landscape restoration.
Covington	SR 516 and Covington Way Intersection Improvements	STBG	\$1,924,552	50/48	Right-of-Way	Construct roundabout with additional turn lanes, replacing the existing signal. Work also includes construction of a shared use path, protected crossings, transit access, and ITS improvements.
Seattle	80th St and 85th St ITS Corridors	CMAQ & STBG	\$3,000,000	50/47	Construction	Upgrade and install communications systems to interconnect traffic signals, add leading pedestrian intervals, optimize corridor signal timing, construct new curb ramps, sidewalks, and accessible pedestrian signal upgrades.
King County Roads	Issaquah-Hobart Road SE and SE May Valley Road Intersection Improvement	STBG	\$545,000	45/41	Preliminary Engineering / Design	Construct a two-lane roundabout, reconstruct the roadway. Install cement concrete curb, gutter, sidewalks, and ADA ramps; marked crosswalks; drainage network improvements, water quality facility, structural walls, landscaping, illumination, and erosion control.

Subtotal: \$47,145,080

RURAL PROGRAM

Sponsor	Title	Funding Source	Amount	STBG/CMAQ Score (out of 100)	Phase	Description
King County Roads	2027 NE Big Rock Road Overlay	STBG	\$792,340	32/NA	Construction	Grind and overlay the roadway from City of Duval limits to Batten Road NE and from NE 117th Street to Kelly Road NE.

Subtotal: \$792,340

ALL OTHERS PROGRAM

Sponsor	Title	Funding Source	Amount	STBG/CMAQ Score (out of 100)	Phase	Description
King County Metro	King County Metro Zero Emission Ferry Replacement Project	CRP	\$1,730,000	70/57	Preliminary Engineering / Design	Electrify the West Seattle Downtown Seattle passenger-only ferry route by replacing one 278 passenger diesel-fueled ferry with two new 150 passenger battery electric vessels, constructing shoreside vessel charging and other electrical infrastructure and vessel moorage at Pier 50.
WSDOT	SR 167/SR 512 to Ellingson Rd Vicinity – SB Congestion Management	CRP	\$1,500,000	48/60	Preliminary Engineering / Design	Widen the roadway, adding express toll lanes on SR 167 southbound to the SR 410/SR 512 interchange, completing the managed lane system on I-405/SR 167.

Subtotal: \$3,230,000

NONMOTORIZED PROGRAM

Sponsor	Title	Funding Source	Amount	STBG/CMAQ Score (out of 100)	Phase	Description
Renton	Sunset Trail	STBG	\$2,500,000	76/73	Construction	Construct shared use path with planted buffer on the north side of NE Sunset Boulevard between Edmonds Avenue NE and NE 10th Street with street lighting, retaining walls, and ADA upgrades.
Bellevue	Eastgate Way Sidewalk	STBG	\$1,068,500	72/65	Preliminary Engineering / Design	Construct sidewalk with new curb and gutter, stormwater drainage, and pavement replacement where affected by construction.
Federal Way	Pacific Hwy Non-Motorized Trail - 288th to N City Limits	CRP	\$600,000	69/74	Construction	Construct shared use path and bike boulevard improvement along 16th Avenue S and 15th Avenue S, respectively.
Bothell	102nd Ave NE Shared-Use Path	CRP	\$1,600,000	63/62	Preliminary Engineering / Design	Construct paved shared use path with planter strip, concrete curb and gutter, retaining walls, and illumination between Main Street and East Riverside Drive, excluding the 102 Avenue NE Bridge.
Issaquah	NW Juniper Street Improvements	CMAQ	\$1,621,875	61/61	Construction	Construct shared use path along one side of the street from Newport Way NW and 7th Ave NW. Work also includes irrigation, drainage, ADA compliant curb ramps, illumination, crosswalks, and signage.
Redmond	156th Ave Shared Use Path	CMAQ & STBG	\$2,000,000	59/58	Construction	Construct shared use path from the 4300 Block to NE 51st Street with enhanced lighting and crossing improvements
Kent	Earthworks Park to Downtown Connection	STBG	\$375,000	51/NA	Planning	Planning for a protected bicycle connection between Earthworks Park and Downtown Kent. Planning activities include project development, equitable community engagement, agency coordination, and feasibility and alternatives analysis.
Shoreline	Trail Along the Rail Master Plan	STBG	\$432,500	52/NA	Planning	Planning for a shared use path alongside the Lynnwood Link light rail alignment from 5th Avenue in Seattle to 195th Street in Shoreline. Planning activities include final feasibility alignment, assessment of property acquisition requirements, development of cost estimates and phasing and scheduling, a public engagement process that mixes outreach methods that includes surveys, workshops, and public meetings.

Subtotal: \$10,197,875

PRESERVATION PROGRAM

Sponsor	Title	Funding Source	Amount	Score (out of 100)	Phase	Description
Kent	South 212th Street Preservation (59th Pl S to 72nd Ave South)	STBG	\$1,500,000	92	Construction	Grind and overlay the roadway, replace failing pavement sections, and install curb ramps and traffic signals.
Federal Way	S 320th Street Preservation (SR-99 to I-5)	STBG	\$1,150,000	91	Construction	Grind and overlay the roadway and construct ADA sidewalk and signal upgrades.

Kirkland	NE 132nd Street Preservation	STBG	\$653,000	90	Construction	Resurface and overlay the pavement, and adjusting lane widths. Construct ADA ramp upgrades, install pedestrian push-buttons.
Auburn	A Street SE Preservation	STBG	\$965,000	87	Construction	Grind and overlay the roadway, make upgrades to ADA curb ramps, and signal detection.
Bellevue	South Downtown Bellevue Arterial Overlay	STBG	\$1,500,000	87	Construction	Grind and overlay portions of roadway, retrofit ADA curb ramps, replace bike lanes, modify traffic signals, and make sidewalk repairs on sections of 112th Avenue NE, 110th Avenue NE, NE 2nd Street, and Main Street.
Kent	S 196th Street Preservation	STBG	\$1,500,000	84	Construction	Grind and overlay the roadway, replace failing pavement sections, and install curb ramps and pedestrian push buttons between the vicinity of 68th Avenue and 84th Avenue S.
Newcastle	Coal Creek Parkway Pavement Preservation	STBG	\$1,205,000	84	Construction	Grind and overlay the pavement, retrofit deficient curb ramps, update pedestrian traffic signals.
Shoreline	15th Ave NE Pavement Preservation	STBG	\$850,000	81	Construction	Overlay the roadway and install ADA curb ramps between the vicinity of NE 165th St and vicinity 17202 15th Avenue NE.
King County Roads	Avondale Rd NE Pavement Preservation	STBG	\$1,407,355	79	Construction	Repair pavement and repave the roadway, upgrade existing curb ramps and pedestrian pushbuttons, replace traffic signal detector loops, and make utility improvements.
Shoreline	Dayton Ave N (Carlyle Hall Rd to Westminster Way) Pavement Preservation	STBG	\$1,100,000	78	Construction	Conduct spot repairs, asphalt overlay, and re-striping.
Bothell	Juanita-Woodinville Way NE Overlay: NE 160th St to 121st Ave NE	STBG	\$800,000	77	Construction	Grind and overlay the roadway, including bike lanes and pedestrian ramps and crossings.

KING COUNTY RECOMMENDED PROJECTS TOTAL:			\$73,995,650			

KITSAP COUNTY PROJECTS RECOMMENDED FOR FUNDING						
Sponsoring Agency	Project Title	Funding Source	Amount	Ranking*	Phase	Description
Kitsap County	Lund - Chase to Jackson 1	STBG	\$3,761,392	1	Construction	Construct sidewalks, bike lane, buffer/stormwater, access management, and illumination.
Port Orchard	Bethel Lund Intersection Improvements	STBG	\$648,750	3	Preliminary Engineering / Design	Construct a two-lane roundabout at the intersection that includes stormwater drainage and utility relocations.

Bremerton	11th Street Roadway Preservation	STBG	\$1,271,550	4	Preliminary Engineering / Design	Provide safety, multimodal, and preservation improvements on three segments of the 11th Street Corridor from Kitsap Way to Pacific Avenue. that includes combinations of resurfacing existing roadway, installing ADA upgrades at curb ramps and traffic signs, landscaping, and street lighting. A road diet will be used in one segment to extend bike lanes and provide wider sidewalks.
Kitsap Transit	Bremerton Transit Center Security Upgrades	STBG	\$550,000	5	Construction	Purchase and install approximately 20 security cameras, monitors, security lighting and pedestrian safety signage at the Bremerton Transportation Center (BTC).
Bainbridge Island	Lynwood Center Road Non-Motorized Improvements Project	STBG	\$1,000,000	6	Preliminary Engineering / Design	Construct non-motorized improvements on Lynwood Center Road between Fletcher Bay Road and Baker Hill Road.
Poulsbo	Third Avenue Improvements	STBG	\$2,062,000	8	Construction	Reconstruct roadway to include new roadway surface, new sidewalk installation, new curb and gutter, defined parking, new bike lane and storm drainage and treatment improvements.
Port of Bremerton	Airport Way Phase 2.2	STBG	\$2,149,308	11	Construction	Construct Airport Way from Old Clifton Road to the south end of the Bremerton National Airport with future connection planned to Lake Flora Rd and the SR 3 Freight Corridor. The roadway includes two vehicle lanes, pervious concrete bicycle lanes and shoulders, a separated pervious asphalt pedestrian path, grass lined stormwater swales, and installation of a wildlife fence.
Kitsap County	Lake Flora - City Limits to JM Dickinson	STBG	\$997,000	13	Construction	Repave travel lanes.

Subtotal: \$ 12,440,000

KITSAP COUNTY RECOMMENDED PROJECTS TOTAL: \$12,440,000

* Kitsap County uses an alternate scoring methodology with ranking based on High, Medium, and Low summaries per each evaluation criterion, rather than numeric scores out of 100.

PIERCE COUNTY PROJECTS RECOMMENDED FOR FUNDING

ROADWAY

Sponsoring Agency	Project Title	Funding Source	Amount	Score (of 100)	Phase	Description
Sumner	166th St Widening and Intersection Improvements	STBG	\$2,249,000	48	Right-of-Way	Widen from two/three lanes to four lanes, and construct roundabouts at the SR 410 westbound ramps and at 64th Street E. The project will include ADA-compliant pedestrian facilities to provide new north-south sidewalk access through the interchange. An existing culvert carrying Salmon Creek will be upgraded as needed.

University Place	Chambers Creek Road Roundabout	STBG	\$800,000	42	Construction	Construct a roundabout at the intersection of Chambers Creek Road and 64th Street West that includes sidewalks, street lighting, landscaping/pedestrian buffers, and connections to existing pedestrian and bicycle improvements.
Subtotal:			\$3,049,000			
NONMOTORIZED						
Sponsoring Agency	Project Title	Funding Source	Amount	Score (of 100)	Phase	Description
University Place	67th Avenue Improvements Phase 3	STBG	\$1,972,907	62	Construction	Construct curb, gutters, landscaped pedestrian buffers, sidewalks, bicycle lanes, and streetlights. The signal at 67th and 44th will be upgraded with audible pedestrian signals. Contrasting pavement markings, pedestrian/bicycle amenities, and speed feedback signs will also be provided Existing median islands will be expanded/enhanced to reduce vehicle speeds. Pedestrian accessibility ramps and landings will be constructed at all intersections to conform to the current WSDOT design standards.
Fircrest	44th Street W Sidewalk Extension Improvements	CMAQ	\$2,578,050	61	Construction	Installation of curb, gutter, sidewalk, landscaped buffers, bike lanes, street lighting, a new pedestrian crossing with RRFB signalization, contrasting pavement markings, and pedestrian/bicycle amenities. The signal at 67th Ave and 44th will be upgraded with audible pedestrian signals. The storm system will be replaced or modified as necessary and retaining walls will be built where needed to accommodate pedestrian improvements.
Puyallup	Meeker Pedestrian Improvements	CMAQ	\$2,500,000	57	Construction	Enhance pedestrian facilities on E. Meeker between Meridian and 3rd Street SE that will widen sidewalks, implement curb extensions, and improve pedestrian crossings.
Edgewood	Meridian & 12th/13th Intersection Improvements	STBG	\$350,000	52	Preliminary Engineering / Design	Construct active transportation and safety improvements that are expected to include a roundabout at one intersection and access controls at the other intersection. Intersection improvements will also include pedestrian crossings with beacons and refuge islands, and striped bike lanes.
University Place	Chambers Creek Road Pedestrian and Bicycle Improvements	STBG	\$297,500	52	Preliminary Engineering / Design	Improve Chambers Creek Road west between Bridgeport Way and Chambers Lane West with new sidewalks, bike lanes, pedestrian oriented street lighting, landscaped pedestrian buffers, pedestrian amenities, and stormwater improvements. Additional safety features will include speed radar feedback signs, pedestrian warning beacons, and contrasting pavements.

Sumner	Rivergrove Community Pedestrian Bridge	STBG	\$5,000,000	51	Construction	Construct a non-motorized bridge over SR 410 that will include approach ramps, shared-use path, sidewalk connections, and minor utility work.
Pierce County	Safe Routes to School - B St E	STBG	\$2,350,000	50	Construction	Construct shared-use paved shoulders, curb, gutter, and sidewalks.
Pierce County	138th Street South Improvements	STBG	\$1,118,600	48	Right-of-Way	Construct paved shoulders and add sidewalks with ADA-compliant curb ramps. Bike lanes will be provided on both roadway shoulder edges. Improvements will also include new concrete curb and gutter, the replacement of worn pavement, new street illumination, upgrades to the stormwater drainage system, and the reconstruction of a flashing red beacon.
Sumner	Elm St. & Wood Ave. Sidewalks	CMAQ	\$346,000	44	Preliminary Engineering / Design	Construct curb, gutter, curb ramps and sidewalks. Other improvements include minor roadway widening to accommodate curb and gutter construction, utility relocates and stormwater improvements.

Subtotal: \$16,513,057

Pierce Transit	Preventative Maintenance 2027-2028	\$1,109,472	2027	5307	This is a TIP bucket project that contains Pierce Transit's FTA-funded ongoing preventative maintenance activities for its vehicle fleet and facilities. Preventative Maintenance covers a range of work to cost-effectively preserve and extend an asset. Typical work includes performance of inspections and maintenance for facilities and associated equipment, appliances, and furnishings; performance of vehicle inspections and routine maintenance, including associated maintenance labor, parts, and supplies. The federal funds represent 4% of the overall maintenance and operations budget for this work.

Seattle	Monorail System Maintenance 2027-2028	\$209,983	2027	5307	This is a TIP bucket project which contains the Seattle Center Monorail's FTA funded major maintenance grants to support the system which began service in 1962. The Monorail System includes two monorail trains (a total of 8 vehicles), two stations, maintenance facility, and the elevated fixed guideway and supports. The work is part of the ongoing Transit Asset Management Plan (TAMP)/Capital and Major Maintenance Plan (CMMP) for the Seattle Center Monorail. The 2027-2028 funds will be used primarily to fund refurbishment and major maintenance projects related to the trains, train-related wayside systems, stations, and elevated guideway. Federal funds represent 80% of the total budget.

Sound Transit	Operations and Maintenance Facility South	\$27,347,691	2027	5307	This project will construct and operate a light rail operations and maintenance facility in its South Corridor (OMF South). The facility would meet agency needs for an expanded fleet of light rail vehicles (LRVs). OMF South would be used to store, maintain, and deploy a minimum of 144 LRVs for daily service. OMF South would include three primary buildings: the Operations and Maintenance Facility (OMF) building, Maintenance of Way (MOW) building, and the Link System-Wide Storage building.
		\$27,347,691	2028

Sound Transit	Regional Express Bus Program (2027-2028)	\$9,470,946	2027	5337 HIMB	This bucket project will include the purchase of replacement buses and the performance of preventive maintenance services - including possible midlife overhauls - for ST's express bus program serving Snohomish, King, and Pierce Counties. The funds will be used to maintain a fleet of approximately 319 buses in a state of good repair and upkeep of bus related facilities to preserve and extend functionality and serviceability of these assets. The 2027-2028 FTA 5337 HIMB funds will pay for preventive maintenance work. The 2027-2028 FTA 5339 funds will procure approximately two buses to replace buses that have reached the end of their useful life.

Sound Transit	Sounder and Link State of Good Repair 2027-2028	\$24,998,492	2027	5337 HIFG	This is a TIP bucket project providing state of good repair/preventative maintenance for Sounder commuter rail and Link light rail rolling stock to extend the life and ensure continued performance of these assets. Sounder includes a current active fleet of 81 locomotives and cab/coach cars and Link light rail active fleet currently includes 65 vehicles. The project includes FTA 5337 HIFG funds (approximately 8% of the overall combined annual budget within the TIP timeframe) to be expended over the span of FFY's 2027-2028 and will provide for labor and fringe costs incurred for engineering maintenance of vehicles, transit way, related structures and supporting maintenance facilities, as well as administrative support of these activities.

ATTACHMENT D: TOC RECOMMENDATION FOR PSRC's 2027-2028 FTA EQUITY FORMULA FUNDING

Sponsor	Project Title	Amount Requested	Year	Description
Community Transit	Equity Focused Bus Stop Rehabilitation 2027-2028	\$4,798,049	2027	Rehabilitate and improve up to 100 Community Transit bus stops in Snohomish County's Equity Focus Areas (EFAs) and/or benefiting Equity Populations as selected utilizing a process that specifically prioritizes those stops with the greatest benefit to EFAs. Project will specifically improve equitable outcomes by investing in bus stop renovations that will enhance accessibility, comfort, safety and service reliability at bus stops used most frequently by Equity Populations These improvements will include amenities, sidewalk access upgrades and other stop site improvements including speed and reliability enhancements. Work could include adding shelters or seating, enhancing accessible boarding/alighting surfaces, adding or upgrading accessible sidewalks and bulb-outs within 150 feet of the stop and adding or enhancing lighting and other safety and security improvements.
		\$4,798,049	2028	
Subtotal		\$9,596,098		
Everett Transit	2027-2028 Vehicle Preventive Maintenance	\$1,151,532	2027	This project is for preventive maintenance work on the agency's fleet of fixed route and paratransit vehicles. In addition to routine maintenance, preventive maintenance is critical for checking safety components such as brakes, ADA securements, stop annunciators, HVAC filtering, and more. This work also includes service on electric vehicles as it is expected that the majority of Everett Transit's fixed-route fleet will be electric by 2025. Everett Transit has a significant quantity of older vehicles that are still in service, with some dating as far back as 2002. Our remaining diesel buses are an average of 17 years old, which is well past FTA's 12-year useful life benchmark. Based on 2023 data, there were 243 road calls for system failures on Everett Transit's fixed-route and paratransit buses. Of the total failures, 191 were considered major that took the buses completely out of service. In 2023, a total of 26 buses were down for over 30 days while awaiting repairs. All 32 census tracts served by Everett Transit's fixed-route service are considered to contain at least one of PSRC's equity demographic groups. This project supports approximately 9,000 labor hours annually. In addition, the bus manufacturer Proterra filed for bankruptcy in 2023. Everett Transit owns 9 Proterra electric buses, and 10 cabinet chargers. With the legal hold-ups of this bankruptcy, ET has come to an impasse regarding parts and support for these buses and corresponding chargers. Despite these buses only being 4-6 years old, they are unable to be repaired for the foreseeable future. As such, 3 of ET's 9 Proterra buses have been completely out of service since December 2023, and the cabinet chargers have no technical support from the company who purchased Proterra's charging line. In turn, this loss reduces the dependability of our diesel and diesel-hybrid fleet, which now has an even higher demand for preventive maintenance and requires more frequent repairs. Without these equity funds, Everett Transit would not be able to maintain its older diesel and diesel-hybrid vehicles which would result in reduced service. Without the ability to maintain and repair the fleet with this funding, our equity populations would not be served.
		\$1,151,532	2028	
Subtotal		\$2,303,064		
King County Metro	RapidRide R Line	\$13,786,393	2027	King County Metro will design and construct a new bus rapid transit (BRT)/RapidRide corridor along Rainier Ave S. The project will include a number of elements which may include business access and transit (BAT) lanes or exclusive transit-only lanes, signal modifications, channelization changes, transit signal priority (TSP), supporting bicycle and pedestrian infrastructure, enhanced stations and stops, real-time arrival information, lighting, and wayfinding. This scope includes design of the entire corridor and construction of the corridor from 4th Ave & Jackson to Rainier Avenue & Bayview. The project supports EFA populations above the regional average living and working along the corridor, similar to Metro's "Priority Populations" which is used to establish and evaluate route target service levels. The project reduces disparities in access to transit, safety and levels of service. Per PSRC's adopted policies, this project is adding Equity funds to a previously awarded phase: The opportunity to use the PSRC's Equity Grant program funding has enabled Metro to not seek funding from the FTA's Small Starts program. The use of the Equity Grant program funding for the RapidRide R Line allows Metro to more efficiently and at lower cost than using the FTA Small Starts program implement the project. Based on Metro's experience not using the FTA's Small Starts funding can provide cost savings of between \$8 and \$9 million dollars and allow us to implement the project up to two years earlier. The RapidRide R Line is currently in early design and as the projects moves forward it is anticipated that cost will change. To implement the project Metro anticipates using the exception policy to requesting additional Equity funding be allocated to the project as the implementation costs become better defined in the later stages of the projects design. This action is similar to what would have occurred if Small Starts funding has been requested as the Small Starts program allows the sponsoring agency the ability to request a funding increase as costs are more defined prior to construction.
		\$13,786,393	2028	
Subtotal		\$27,572,786		

Sponsor	Project Title	Amount Requested	Year	Description
Pierce Transit	Shuttle Revenue Vehicle Replacement 2027-2028	\$4,606,127	2027	Pierce Transit will purchase approximately 36 shuttle revenue vehicles to replace rolling stock at the end or reaching the end of its useful life for Pierce Transit's ADA Paratransit service. ADA shuttles increase mobility and accessibility for people with disabilities and serve as connecting points to other public transportation systems around the region. Without reliable door-to-door transportation service, the mobility challenges experienced by our passengers with disabilities would be nearly impossible to overcome. Moreover, the rides are critical to ensuring that no barriers prevent our ADA clients from getting to and from medical appointments, work, or accessing banking services and supermarkets with affordable/good-quality fresh food.
		\$4,606,127	2028	The Equity funds are needed as currently there are no other identified funds that will be used for the shuttle vehicle replacements. If Pierce Transit moves other resources to cover the cost of this project, other projects will also experience significant delays due to being underfunded. If Pierce Transit would not perform its ADA services optimally with new shuttle vehicles, then Pierce Transit will experience a loss in income from its ridership.
Subtotal		\$9,212,254		
Seattle	Maintenance for the First Hill Streetcar Line (2027-2028)	\$1,023,584	2027	This project includes 5307 funds for vehicle and facility preventive maintenance, corrective maintenance, expected vehicle overhauls and other defects as may occur in the 2027-2028 timeframe for the First Hill Streetcar line, which serves PSRC's defined Equity Focus Area communities. Typical work includes routine inspections and maintenance of track, landscaping, overhead contact system, power substations, platform and maintenance facilities, and streetcars. In addition to the typical maintenance work required, the First Hill Streetcar line is ageing and will need more intensive maintenance in future years such as core vehicle and track component repairs in order to keep service reliable. For instance, First Hill Streetcar has seen deteriorating levels of service due to ongoing battery failures and will be conducting an overhaul of the streetcar batteries in 2027-2028 to retrofit an improved cooling system that is critical to the reliability of the unit and streetcar's ability to provide consistent service. The overhaul of 16 batteries will involve the removal and rebuild of each unit separately to preserve service while the overhaul is performed and to ensure long term service reliability once the project is completed. Additionally, enhanced lighting at shelters has been added to First Hill Streetcar shelters in the past five years as part of implementing Seattle's Transportation Equity Framework that requires additional maintenance, repairs, and replacements. Federal funds represent 19% of the total budget.
		\$1,023,584	2028	The Equity funds are needed as there are no other funding sources available to complete these intensive maintenance needs and budget challenges are projected to continue as the city experiences revenue losses from multiple sources. Without this work being completed, the First Hill Streetcar will have fewer vehicles available to provide service for EFA neighborhoods and frequency could be degraded. The Equity funding will directly prevent a loss in service reliability.
Subtotal		\$2,047,168		
Sound Transit	Regional Express Bus Program (2027-2028)	\$5,309,841	2027	This project will include the purchase of replacement buses for ST's express bus program serving Snohomish, King, and Pierce Counties. The 2027-2028 FTA 5307 equity funds will be used to purchase approximately nine high-capacity transit buses. ST needs to replace 40-ft buses that have exceeded their useful life with new, high capacity double decker buses that have 45 more seats per bus. Double decker buses are needed to relieve over-crowding on some of ST Express's busiest routes such as Route 594 which serves higher percentages of minority and low-income populations.
		\$5,309,841	2028	
Subtotal		\$10,619,682		

Sponsor	Project Title	Amount Requested	Year	Description
Washington State Ferries	System-wide ADA Preservation and Improvements (2027-28)	\$1,311,467	2027	Washington State Ferries is required to preserve and improve its infrastructure which includes assets that assist our passengers with disabilities. It is estimated that our total ADA needs to accomplish this exceed \$50 million. This overall project with funding totaling \$25 million is expected to make progress in preserving and improving the ADA community's ability to travel on the Washington State Ferry System and is expected to be provided in \$5 million increments (state biennia) and will make complete projects that work toward addressing the total ADA needs. One of the initial steps will be for WSF to assess the ADA needs. The result of this assessment will be a list of prioritized deficiencies, including location specific details. This information will be used to generate projects to address the deficiencies within the available funding levels. Washington State Ferries has several projects that can be accomplished to address some deficiencies concurrent with the assessment. These deficiencies were identified from various sources such as complaints from our passengers, WSF Directors, WSF employees operating the ferry system and others. These projects include but are not limited to:
		\$1,311,467	2028	<ul style="list-style-type: none"> •ADA-compliant electronic signage •Updated physical signage •Technologies to support Accessible Wayfinding •Detectable Warning Elements & Pathfinding •Hearing Loop Systems •Improved ADA Accessible galley seating •Improved ADA Accessible waiting areas •Powered Wheelchairs and Charging Stations •Non-powered wheelchairs •Improvements at Ticketing booths •Curb Cuts •Benches along walkways •Tactile maps/markings. <p>Projects will be deployed at terminals and on vessels within the Seattle-Tacoma-Everett UZA and consistent with the PSRC Project Selection Resource Map which identifies broad swaths of Persons with Disabilities above the regional average in locations served by WSF Terminals and routes including in King, Snohomish, Pierce and Kitsap counties. The Equity funds will be applied to this project in increments for new investments per the overall project budget.</p>
Subtotal		\$2,622,934		
Equity Total		\$63,973,986		

Puget Sound Regional Council

July 3, 2024

DISCUSSION ITEM

To: Transportation Policy Board
From: Kelly McGourty, Director, Transportation Planning
Subject: **Coordinated Mobility Planning**

IN BRIEF

At the July meeting, the Transportation Policy Board will be provided a briefing on the work to develop PSRC's next Coordinated Mobility Plan (the region's Coordinated Transit-Human Services Transportation Plan), which identifies specific transportation needs of people with accessibility and mobility challenges. Key components of the plan include the assessment of transportation programs serving priority populations, transportation needs identified from inclusive engagement and regional priorities to improve the needs.

DISCUSSION

The Coordinated Mobility Plan, a component of the Regional Transportation Plan (RTP), serves as the comprehensive strategy for addressing transportation challenges experienced by people with accessibility and mobility needs, including older adults, youth, people with low incomes, people with disabilities and people with limited English proficiency (LEP). This encompasses not only specialized transportation services (i.e., ADA complementary paratransit, accessible shuttles) that are targeted to priority populations but also public transit services, accessible sidewalks and other facilities. Implementation of this regional plan is a shared responsibility among transit, specialized transportation/human service agencies, local jurisdictions and other regional partners. The current plan, adopted in 2022, can be found here: <https://www.psrc.org/planning-2050/regional-transportation-plan/coordinated-mobility-plan>.

Required under federal and state law, the plan is updated every four years as part of the RTP development and PSRC engages communities directly through surveys and inclusive outreach meetings led by community-based organizations (CBOs) and mobility

coalitions. Working closely with these partners, as well as PSRC's Special Needs Transportation Committee, the plan highlights the mobility challenges experienced by these priority populations throughout the region. Prioritized strategies are also co-developed with the communities to address their specific transportation needs.

In addition, the Coordinated Mobility Plan is the basis by which projects in the region are identified and prioritized for the Washington State Department of Transportation Consolidated Grant program, which awards state and federal funds for specialized transportation services. The call for projects for the 2025-2027 biennium was released in June and the board is expected to act on the project prioritization recommended by the Special Needs Transportation Committee later this year.

At the July meeting, staff will provide additional details on the Coordinated Mobility Plan and seek the board's feedback on key elements of the next plan including the upcoming outreach to engage people with accessibility and mobility needs.

For more information please contact Jean Kim, Senior Planner, at jkim@psrc.org or 206-971-3052.

PSRC Transportation Work Program - Draft Progress Reporting

DRAFT Progress Chart (Timeline as of July 3, 2024)

Status	
■	Preparing
■	In Progress
■	Complete
■	Tentative

Project	Status to-date
Regional Transportation Plan	
Alignment of RTP and Funding Cycles	TBD - pending further board discussions
Update RTP Project Prioritization Framework	Anticipated Q3 2024 - Q2 2025
Board work group to determine 2026 RTP scope of work	RTP Steering Committee, beginning February 2024
TPB direction on scope of work for 2026 RTP	Discussions beginning February 2024
RTP development	Q2 2024-Q2 2026
Financial Strategy Refinement	Board discussions beginning Q2 2024
PSRC Funding	
Policy Framework for PSRC's Federal Funds	Board adopted January 2024
FHWA Project Selection: Board Action	Q3 2024, following competitions
FTA Funding Methodology Process Discussion	Completed with board action in March 2023
FTA Project Selection / Equity Formula Distribution	2025-2026 projects approved; 2027-2028 process included in 2024 project selection process
Annual FTA Adjustments Process	Complete
Rural Town Centers and Corridors Project Selection	Complete
Transportation Alternatives Project Selection	Complete
Equity Pilot Program Development	Complete
Equity Pilot Program Project Selection	Board approved January 2024
Consolidated Grant Program Regional Rankings	Complete
Transportation Improvement Program (TIP)	
2025 -2028 TIP Development	Q3-Q4 2024, following 2024 project selection
Conduct Equity Analysis of draft 2025-2028 TIP	Q3-Q4 2024
Release of 2025-2028 TIP for Public Comment	Q3-Q4 2024
Board Action on 2025-2028 TIP	Q4 2024
Monthly TIP Amendments	Ongoing
Project Tracking/Rebalancing	Ongoing
Climate: GHG Analysis and Planning	
2030 Transit Networks and Service	Complete
PSRC 2030 Network Modeling and Analysis	Complete
Puget Sound Regional Emissions Analysis Project	Complete
Regional Electric Vehicle Collaboration Clearinghouse	Operational/Ongoing, initial launch complete, maintenance and updates ongoing
Regional Electric Vehicle Collaboration Outreach	Ongoing
Develop Climate Implementation Strategy with Partners	Board discussions in Q1-2 2023 and expert panel convened; CPRG planning work underway with partners, Preliminary Climate Action Plan submitted to EPA March 1, 2024, Comprehensive Climate Action Plan due summer 2025
PSRC Board Progress Briefings	Ongoing
Regional Safety Plan	
Explore Grant/Funding Opportunities	Complete
Apply for Safe Streets for All Grant	Round 1 complete; Round 2 complete
Research current plans, roles and responsibilities	Preliminary local safety plan inventory completed; more detailed review to be conducted as part of the Regional Safety Action Plan
Convene Stakeholders	Complete - Regional Safety Summit held June 29, 2023
Develop Scope of Regional Safety Plan	Complete; board review September 2023

Develop Regional Safety Plan	Technical and engagement consultants under contract; work to commence through Q1-Q2 2025
Performance Measures and Dashboard <i>Align with Equity Tracker, other related monitoring efforts</i>	
Identify Measures	Complete
Develop Dashboard Outline for Board Feedback	Complete
Assemble Data	Initial set complete; ongoing and continuous
Publish Draft Dashboard	Complete
Refinement and Updates	Ongoing
Annual Board Briefings	Briefing February 2024 and annually thereafter
Active Transportation Plan Repackaging	
Repackage Active Transportation Plan	Complete
ADA Transition Plan Technical Assistance	
Research current plans, roles and responsibilities	Preliminary research complete; moving to monitoring role
Board Briefing and Discussion	TPB briefing June 2023
Annual Transit Integration Report	
Report Development	Complete
Publish Report	Released November 2023
Big Ideas/Transformational Planning	
Regional Convenings to Support Effort	TBD - pending further board discussions
Future of HCT Regional Convening	TBD - pending further board discussions
Data Collection, Analysis, Performance Metrics	
Data collection, maintenance of viz tool and improvements	In Progress, Q1-Q4 2024
Equity, EJ analysis methodology improvements	Q3-Q4 2024
RTP Financial Strategy	
Collaborate with Partners on Implementation Steps	TBD - pending further board discussions
