

TOOLBOX: PSRC Data Tools for Planners Handout

February 7, 2025

PSRC offers a suite of interactive data tools to help regional stakeholders understand and analyze trends across the central Puget Sound region. This handout offers an overview of five PSRC resources.

PSRC Data Portal

The PSRC Data Portal is a site that allows users to explore, map, and download GIS and tabular data, as well as access many of our data tools.

Contact: Lauren Engel, lengel@psrc.org

Equity Tracker

The Equity Tracker allows users to measure and monitor disparities between different communities in the region, by analyzing a range of data indicators that are connected to our region's comprehensive plan, VISION 2050. This tool helps to provide context into reasons for past and present inequities, visualize existing conditions and historical trends, and connect these issues to potential solutions.

Community Profiles Dashboard

The Community Profiles dashboard is a web tool for accessing commonly used demographic, housing, economic, and transportation data for local jurisdictions. Users can view and map a variety of data measures and download profiles for individual cities, towns, and counties.

Regional Transportation Plan (RTP) Performance Dashboard

The Regional Transportation Plan (RTP) Performance Dashboard is a resource to help elected officials and transportation staff understand how well the region is meeting long range goals and desired outcomes identified in the RTP. Metrics on the Dashboard are focused on topic areas that were identified by PSRC's Transportation Policy Board as high priorities for the region during development of the RTP.

Household Travel Survey Data Explorer

PSRC's Household Travel Survey Explorer is a dashboard to help analyze travel behavior in the central Puget Sound region. The explorer provides summary findings on demographics and various travel topics from the 2017, 2019, 2021, and 2023 surveys.
